# Contents

1 Introduction, Preliminaries and Review ..... 1

1.1 Introduction .................................................. 1

1.2 Basic definitions in graph theory ............................... 3

1.3 Cycle multiplicity and Tulgeity of graphs ...................... 7

2 Tulgeity of Line, Middle and Total graph of $K_n$ and $K_{m,n}$ ..... 12

2.1 Preliminaries .................................................. 12

2.2 Tulgeity of line graph of $K_n$ and $K_{m,n}$ ................... 13

2.3 Tulgeity of middle and total graph of $K_n$ and $K_{m,n}$ ...... 20

3 Tulgeity of Line, Middle and Total graph Knödel and Prism graph 32

3.1 Preliminaries .................................................. 32

3.2 Tulgeity of line graph of Knödel and prism graph ............ 37

3.3 Tulgeity of middle and total graph of Knödel and prism graph . . . . 47
## Contents

4 Tulgeity of Line, Middle and Total graph of Wheel Graph Families 69

4.1 Preliminaries ......................................................... 69

4.2 Tulgeity of line graph of wheel graph families .................... 72

4.3 Tulgeity of middle and total graph of wheel graph families ....... 75

5 Cycle Multiplicity of Middle Graph of $K_n$, $K_{m,n}$, $P_n$ and $C_n$ 81

5.1 Preliminaries .......................................................... 81

5.2 Cycle Decomposition of $K_n$ and $K_n - I$ ........................ 82

5.3 Cycle Multiplicity of Middle graph $K_n$ and $K_{m,n}$ .............. 85

5.4 Cycle multiplicity of middle graph of path and cycle .......... 90

6 Conclusion ............................................................... 92

References ............................................................... 94

List of Publications ..................................................... 103
