List of Figures

Figure 3.1 Independent variables.................................................................103
Figure 3.2 Formula for supplied in obligatory contexts analysis of morphemes..............108
Figure 3.3 Formula for target-like use analysis of morphemes ...................................109
Figure 4.1 Groups’ mean scores for grammaticality judgement task across two testing times........120
Figure 4.2 Groups’ mean scores for written production task across two testing times........123
Figure 4.3 Percentages of preference for error correction........................................126
Figure 4.4 Percentages of preference for frequency of correction................................127
Figure 4.5 Percentages of preference for time of correction.......................................129
Figure 4.6 Percentages of preference for choice of corrector......................................131
Figure 4.7 Percentages of preference for correction in group work ................................133
Figure 4.8 Percentages of preference for correction error correction in front of the class .......134
Figure 4.9 Percentages of preference for error correction during communicative activities .......136
Figure 4.10 Percentages of preference for type of correction .......................................138
Figure 4.11 Percentages of preference for distinction between major and minor errors ...........139
Figure 4.12 Percentages of preference for intensive correction .....................................141
Figure 4.13 Percentages of prediction of future performance in grammaticality judgment tests ....142
Figure 4.14 Percentages of prediction of future performance in written production tests .......143
Figure 4.15 Percentages of error correction and anxiety .............................................145
Figure 4.16 Percentages of error correction and fluency .............................................146
Figure 4.17 Percentages of error correction and future participation in speaking activities .......147
Figure 4.18 Percentages of ignoring learners’ errors and learners’ irritation ............149
