Acknowledgments

I wish to express sincere thanks to my supervisor Dr. Vidyasagar G. M., Professor and Chairman, Department of Botany, G.U.G. for giving me the opportunity to work with this fascinating subject. His association with this endeavor of mine will remain a beacon light to me throughout my life. He has encouraged me and prepared me for the next step from the first day I came into the lab. I thank him for his understanding, professionalism, his scientific idea and vision. His simplicity, caring attitude and provision of fearless work environment will be cherished in all walks of my life.

It is my pride privilege to express my sincere thanks and deep sense of gratitude to Dr. A. H. Rajasab, Dr. Srinath Rao, Dr. Y. N Seetharam, and Dr. Pratima Mathad, for their generous and kind help. I would like to thank Dr. L. Rejanna for his kind help in the identification of collected plant species.

I am pleased to thank guest faculty & friends Dr. Niranjan and Dr. Venkat Shinde, for their help and support throughout my work.

The cooperation received through my research lab mates namely Dr. Preethi, Mr. Shiva kumar singh, Miss. rekha, and Mrs. Nuzat is thankfully acknowledged. I owe a word of thanks to all the research scholars, lab assistants and those that could not find a separate name but helped me directly or indirectly.

My Sincere thanks to Dr. S.M.Gaddad, Department of Microbiology, Gulbarga University, Gulbarga, for providing fungal and bacterial strains.

I would like to thank to Dr Basavaraj, Scientist, Dept. of Soil Science, Krishi Vigyan Kendra, Gulbarga, for his help in testing the soil samples.

It’s a great pleasure for me to express my gratitude to The Chairman and executive members, V.V. Sangha, Bellary, The Chairman and Members, College Governing Body and The Principal, A D B First Grade College, Harapanahalli for giving me permission to conduct the research work. I am also very much thankful to all my colleagues for their moral support.

It is my pride privilege to express my sincere thanks to all the herbal practitioners and farmers of Bellary district for sharing their valuable knowledge on traditional use of
medicinal plants. I am very much grateful to them for giving their consent to publish their information in the thesis.

I am highly thankful to Mr. Sathish M. S., Mr. Nagaraj S. and Mr. Kotra Gouda, N. G. for their invaluable co-operation and help during the field work.

At this moment I express my deepest gratitude to my parents Sri. S. M. Sitikantha and Smt. S. M. Dakshayini for their blessings and constant support to accomplish my PhD work.

I express my deep gratitude to my wife Smt. S. M. Anitha for her help, inspiration and moral support, during the course of my study. At this moment, I remember the constant support and co-operation of my beloved sons Suhas and Sumanth.

I do not find enough words with which I can express my feeling of thanks to my entire family member and in laws for their help, constant co-operation and moral support.

I am very much thankful to Mr. T. Revindra Kumar M/s Glorious Computers, I.B.Circle, Harapanahalli for his excellent word processing.

I also thank Mr. Sharanappa and all other non-teaching staff members of the department of Botany, Gulbarga University, Gulbarga for their kind co-operation and help.

S.M. Siddalinga Murthy
