Acknowledgement

“In the name of GOD, the most gracious and most Merciful”

I would like to acknowledge the creator who made all life possible and without whom I wouldn’t be here. This thesis is the end of my journey in obtaining my Ph.D. I have not traveled in a vacuum in this journey. This thesis has been kept on track and been seen through to completion with the support and encouragement of numerous people including my well wishers, my friends, colleagues and various institutions. At the end of my thesis I would like to thank all those people who made this thesis possible and an unforgettable experience for me. At the end of my thesis, it is a pleasant task to express my thanks to all those who contributed in many ways to the success of this study and made it an unforgettable experience for me.

At this moment of accomplishment, first of all I pay homage to my supervisor, Dr. Amita Verma, Head, Department of Pharmaceutical sciences, Faculty of Health Sciences, SHIATS. This work would not have been possible without her guidance, support and encouragement. Under her guidance I successfully overcame many difficulties. I am thankful to her for invigorates guidance, felicitous advice, punctilious and valuable hints with energizing, criticism, thought during the course of my dissertation work.

Words are insufficient to express to my sincere gratitude and regard to co-supervisor Dr. M. Vijayakumar, Scientist, Ethnopharmacology division, National Botanical Research Institute, Lucknow whose painstaking help, explicit decision, guidance, valuable suggestion, personal interest and attention keenly lavished upon has been a privilege for me. I do not really have the befitting words to express my sincere thanks due for him.

I am extremely grateful to Dr. Ch. V. Rao, Principal Scientist, Ethnopharmacology division, National Botanical Research Institute; Lucknow who provided the infrastructure support and continued encouragement to do quality work.

I am also extremely indebted to Prof. (Dr.) Alok Mukerjee, Principal, United Institute of Pharmacy, Allahabad for providing necessary infrastructure and resources to accomplish my research work. I am very much thankful to him for picking me up as a student at the critical stage of my Ph.D. I warmly thank for his valuable advice, constructive criticism and his extensive discussions around my work and for providing approval of animal experimentation through CPCSEA, IAEC to carry out the pharmacological work on experimental animals.

I wish to communicate my lots of thanks to Prof. R. B. Lal, Hon’ble Vice- Chancellor, SHIATS, for providing me a platform for higher education.

I am very thankful to Prof. (Dr.) G.S. Shukla, Associate Dean, FHS, and research coordinator Dr. Neena Gupta for providing me an opportunity for working on this project.
I would like to extend my gratitude of thanks to Dr. Sayeeda Khatoon and Dr. A. K. S. Rawat, for the authentication of plant materials. I take this opportunity to say heartfelt thanks to Dr. Bhavani Eswaran who helped me through various stages of my project work at NBRI, Lucknow.

I would like to extend my gratitude of thanks to Dr. S. K. Ojha, Scientist, Ethnopharmacology division, National Botanical Research Institute Lucknow, for his constant support and concern during my tenure.

It’s my fortune to gratefully acknowledge the support of some special individuals. I owe a great deal of appreciation and gratitude to Prof. Avinash C Pandey, Vice Chancellor, Bundelkhand University, Jhansi for their moral support throughout my research work.

I am obliged to Dr. Himanshu Pandey, Dr. Vyom Parashar and Mr. Upendra Kumar Sharma for his nice cooperation, ebullient encouragement and useful discussion in a great way to broaden my concept toward this dissertation.

I gratefully acknowledge my colleagues Mrs. Shradhanjali Singh for her involvement with originality in laboratory work and nourished my intellectual maturity which have provided good and smooth basis for my Ph.D. tenure. My thanks are due to Mr. Sunil Singh for his valuable suggestions and untried help during animal experimentation and blood collection.

I also take this opportunity to convey my sincere thanks to teaching and non-teaching staff of FHS, SHIATS especially, Mrs. Monisha Grey, Librarian, Mr. Anup Masih, Store Incharge, and Nitesh, Incharge Pharmacognosy laboratory for their kind cooperation throughout.

I am also thankful to my colleagues Anil Kumar Singh, Amit Kumar Singh, Bhupesh Verma, Amit Kumar Gupta, Arvind Srivastava, Milan Mandal and Geeta Rai for encouraging me and continuous support throughout the progress of research work.

I am thankful to my friends Manish, Nishesh, Trishna, Abhimanyu, Dilip, Pradeep, Prasoon, Shweta for their time to time support during my work.

Last but not least I have the proud privilege of mentioning My Parents, Brother Ramendra, Sisters Neelam & Poonam, loving Niece Gudia and loving Nephew Vitthal for their valuable love, affection, encouragement, inspiring sentiments and constant support to me throughout my thesis work. Their blessing that enables me to reach to this stage of my life.

Finally I thank almighty GOD once again for his benevolence
