

D E C L A R A T I O N

Certified that the work presented in this thesis entitled "Studies on the electrical, optical and thermal properties of molybdenum trioxide, vanadium pentoxide and titanium dioxide thin films" is based on the original work carried out by me under the supervision of Dr.C. Sukumara Menon, in the School of Pure and Applied Physics, Mahatma Gandhi University, Kottayam and has not been included in any thesis submitted previously for the award of any degree or diploma.
