ACKNOWLEDGEMENT

This thesis is the end of my journey in obtaining my Ph.D. I have not travelled in a vacuum in this journey. This thesis has been kept on track and been seen through to completion with the support and encouragement of numerous people including my well wishers, my friends, colleagues and scientists of various institutions. At the end of my accomplishment, it is a pleasant task to express my whole hearted thanks to all those who contributed in many ways to the success of this study and made it an unforgettable experience for me.

I thank Almighty God, who has been with me and showered his blessings and His kind grace on me all through the years.

First and foremost, I take this opportunity to express my sincere gratitude to my guide and supervisor, Dr. K. Sahayaraj, Associate Professor, Department of Zoology, St. Xavier’s College (Autonomous), Palayamkottai for his continuous support in my Ph. D study and research. He motivated and moulded me in many ways to be a researcher. His guidance helped me in gaining knowledge in the vast areas in due course of my research period. I have been extremely lucky to have a guide who cared so much about my work, and who responded to my questions and queries so promptly.

I take this opportunity to sincerely acknowledge the Council of Scientific and Industrial Research (CSIR), Government of India, New Delhi, for providing financial assistance in the form of Technical Assistant which buttressed me to perform my work comfortably.

I would like to thank the Principals, Rev. Dr. Alphonse Manickam, S. J. Rev. Dr. A. Joseph, S.J. (former), Rev. Dr. V. Gilbert Camillus, S.J. (Present), Secretaries,
