**Acknowledgement**

This is not just a formality but, a sincere effort to thank all those who have directly or indirectly helped me to accomplish this task.

I offer my prayer to “**God Swaminarayan**” because of his blessings I have successfully completed my mission.

I take this opportunity with an immense pleasure to express my deep sense of gratitude to my research supervisor **Dr. K. D. Patel** (Associate professor, Chemistry Department, V. P. & R. P. T. P. Science College, Vallabh Vidyanagar), from whom I’ve learned so much. Your enthusiasm and dedication to research and positive attitude have been inspirational. You have given me confidence and prepared me well for a career path that I never knew was at hand.

My entire work was carried out in the Chemistry Department, V. P. & R. P. T. P. Science College, therefore, I wish to express my gratitude to the authorities of **Charutar Vidya Mandal** and **Dr. D. J. Desai** (Principal, V. P. & R. P. T. P. Science College, Vallabh Vidyanagar) and **Dr. B. C. Dixit** (Head of the Department, Chemistry, V. P. & R. P. T. P. Science College, Vallabh Vidyanagar) for his keen interest in the research, and for providing all necessary laboratory and library facilities.

My most heartfelt expression of gratitude to **Dr. B. Z. Dholakiya** for his advice and discussions with him has been invaluable to my work.

I take this opportunity to express my sincere thanks to **Anand Mercantile College Of Science Management & Computer Technology, Anand**, for providing computer laboratory.

I would like to express my thanks to **Dr. Santosh Bhuva**, **Dr. Vipul Kaila**, **Dr. Natvar Sojitra**, **Mr. Chandresh Jagani**, **Dr. Gaurang Kharadi** and **Ms. Trupti Darji** and to all my colleagues, **Ketan**, **Jiten**, **Hitesh**, **Atulbhai**, **Satish**, **Tarosh** and **Gautam** for maintaining a warm and an encouraging atmosphere. They made my working in the lab very enjoyable. It is my duty to acknowledge all my friends for keeping their patience with me throughout my anxieties during the past years.
My special grateful thanks are due to my beloved mother Smt. Kokilaben B. Patel for their selfless love and constant support in my endeavor to carry out this research from beginning to end. I lack words to express my gratitude to my uncle Mr. A. C. Patel (Motakaka) for her blessings and inspiration. The words are insufficient to express my gratitude to loving sister Avani R. Patel who ungrudgingly shouldered my share of domestic responsibilities. I am also very much thankful to all my family members who have helped me directly or indirectly during my research tenure.

My special thanks are extended to one and all staff members of Chemistry Department.

Ravi B. Patel
