Acknowledgement

It gives me immense pleasure to express my heartfelt thanks and indebtedness to my respected teacher and guide Shri Dr. Soibam Giri Singh, Associate Professor and Head, Department of Biochemistry, Manipur College, Imphal, Manipur for his constant advice, encouragement, understanding and for giving me all the help that I needed during the course of my study.

I also like to express my deep sense of gratitude to the Principal and other staff of the Department of Biochemistry, Manipur college, Imphal for their cooperation and support at all times during the entire period of my study. Though working with limited facilities was a constraint but their encouragement and support kept my dream alive.

It is also my pleasure to thank Dr. P. Ranabir Singh, Principal, L. Sanatombi Devi, Head; N. Kunjabati Devi, Former HOD and all the other faculty members and staff of Department of Chemistry, D.M. College of Sciences, Imphal for their advice, guidance and support during the course of the study.

I like to extend my thanks to the staff of the Department of Biochemistry, Manipur University, Canchipur; Professors S. Kunjeshori Devi and L. Rupachandra Singh, Dr N. Debananda Singh, Associate Professor, Dr S. Sunil Singh, Assistant Professor and other staff members for their guidance and support while undertaking the study.

My profound thanks also goes to Director, Bose Institute Kolkata and specially Ms. Tanima Modak Dhar, Scientific Officer-I working at the Sophisticated Analytical Instrument Facility (SAIF), Bose Institute, Kolkata for kind permission in the conduct of few analytical studies by HPLC as a part of my research work.

I am also indebted to Prof. R.K. Narendra Singh, Professor and Head, Department of Biostatistics, Regional Institute of Medical Sciences, Imphal for helping me in the statistical analysis of my research findings inspite of his busy schedule.
I express my gratitude and gratefulness to Shri L. Tomba Singh, Proprietor, Dr. H. Surajbala Devi, Sh. Jogen Sharma, P.K. Telem, computer operator, BCPW, Lamphelpat and Sh. Sharat Sharma for helping me with typesetting, binding and giving the final shape of a book to my research work.

I also extend my gratefulness to the proprietor, M/S Sharma Brothers, Paona Bazar Imphal who had readily agreed to supply some rare chemicals and reagents required to undertake the study.

I dedicate this work to my parents Dr Elangbam Kuladhaja Singh, former Principal and Head, Department of Medicine, Regional Medical College, Imphal (now RIMS, Imphal) and Smt. Elangbam (O) Ahanthem Chitra Devi who inspite of their old age, debility and sufferings encouraged me for higher studies. They are the source of inspiration for me and I express my profound gratitude for their encouragement and support which gave strength to accomplish the study.

My father-in-law Shri H. Thoithoi Singh, Ex-MLA, Manipur and my mother-in-law (Late) Smt. Heigrujam Ongbi Manglembi Devi were supportive and encouraged me to accomplish the research work. My husband, Dr Heigrujam Rebachandra Singh was critical and pointed out lacunae during my endeavour at all times. However, he guided me all through this long slippery journey. I am deeply indebted to him and also my son Barahaditya for their constant support, understanding and sufferings which have given me strength and determination to complete the study.

I will not be doing justice if I do not express my thanks to all my friends and well wishers and all the concerned whose names could not be mentioned here but helped me in some way or the other during the course of my research study.

Lastly, I pray and thank the Almighty God for His blessings and for giving me health and strength to complete the study successfully.

Dated, Imphal (Priya Elangbam)
