ACKNOWLEDGEMENT

I am extremely grateful to Dr. Yogeshwer Shukla, Scientist, Environmental Carcinogenesis Division, Industrial Toxicology Research Centre, Lucknow for his valuable supervision without which this task would not have been possible.

I am delighted to record my most sincere regards and deep sense of gratitude to honourable Sir, Dr. S. Raisuddin, Asst. Professor, Department of Medical Elementology and Toxicology, Jamia Hamdard, Hamdard University, New Delhi for his expert guidance.

I am deeply indebted to Prof. M. Athar, Department of Medical Elementology and Toxicology and Prof. S.K. Jain, Dean, Faculty of Science, Jamia Hamdard, Hamdard University, New Delhi for permitting me to work in the Department of Medical Elementology and Toxicology of their institute and providing all necessary facilities.

Words would be inadequate to record my special debt of gratitude to Dr. S.B. Vohra, Head, Department of Medical Elementology and Toxicology, Jamia Hamdard, Hamdard University, New Delhi for his cooperation and excellent guidance.

I am very much indebted to Dr. R.B. Raizada, Scientist and Head, Pesticide Toxicology, Industrial Toxicology Research Centre, Lucknow whose immensely vast knowledge and experience in research field has been largely responsible for my work to have a meaningful and purposeful direction.

I am thankful to Dr. P.K. Seth, Director, Industrial Toxicology Research Centre, Lucknow for providing me all the facilities during the research.
I would like to record my sincere appreciation and thanks to Dr. L.K.S. Chauhan, Dr. P.N. Saxena, Dr. A.K. Saxena, Dr. (Ms.) K.P. Gupta and Dr. (Ms.) Kanchan L. Sabharwal, ITRC, Lucknow for their cooperation, fruitful suggestion, valuable advices and constant encouragement during thesis work.

Lastly, I am thankful to all those persons who tried their best to do this work.
