ACKNOWLEDGEMENTS

The author acknowledges and expresses his deep sense of gratitude to Dr. A.C. Rao, B.E. (Mech. Engg.), M.E. (I.C.E.), M.E. (Mech. Engg. Design), Ph.D., D.Sc., whose able guidance, incessant encouragement, sound counsel and exhibition of patience of job were instrumental in developing this work. The author considers himself fortunate to be associated with Dr. Rao.

The author humbly records his gratitude to Dr. Kamal Kumar, B.Sc. (Engg.), M.E., Ph.D., former Principal, Govt. Engineering College, Raipur and Dr. H.A. Vachhani, B.E. (Hons), M.E., Ph.D., Principal, Govt. Engineering College, Raipur, for permitting to carry out this work and for their constant encouragement and keen interest in the activity.

Sincere thanks are also due to Prof. G.S. Verma, B.E. (Hons), M.E., Professor and Head, Deptt. of Mechanical Engineering, for his everhelping hand and his profound encouragement throughout the period of research.

Acknowledgements are due to Dr. M.L. Jeswani, B.E. (Hons), M.Tech., Ph.D., Reader and Shri L.K. Patel, B.E. (Hons), M.Tech., Lecturer, Department of Mechanical Engineering for their invaluable help, constructive
criticism and suggestions which went a long way in improving this work.

The author wishes to express his sincere thanks to Dr. H.R. Singh, M.Sc., Ph.D., Professor and Head, Deptt. of Statistics and Mathematics and Dr. Gauri Shankar, M.Sc., Ph.D., Lecturer, Deptt. of Statistics and Mathematics, Ravishankar University, Raipur, for their help extended from time to time.

Thanks are also due to Shri V.D.Malewar of the Department of Mechanical Engineering for his help from time to time at various stages of the work.

It is difficult to express explicit acknowledgements to those who have in one way or the other, extended their everwilling and cheerful co-operation and also remained source of strength during this work. The author humbly offers his most sincere thanks to all of them.

D.K. Mishra
