ACKNOWLEDGEMENTS

I am greatly indebted to my guide, Dr. E.A.V. Prasad, Reader in Geology, who is instrumental in inspiring and introducing me to the field of research. I express, with immense pleasure, my sense of gratitude to him for suggesting the problem, valuable guidance and for constant encouragement throughout my research work.

I am grateful to Prof. K.V. Suryanarayana and Prof. M.S. Murty for their keen interest in carrying out this thesis. I acknowledge Dr. C.V.K.K. Prasad, for his help in carrying out Susceptibility and Natural remanent Magnetisation determinations. I am also thankful to the Director and particularly to Dr. M.S. Bhalla and Mr. T.T.A. Chetty of National Geophysical Research Institute, Hyderabad for kindly helping in the measurement of susceptibility of some samples, when the instrument in this department went out of order during the progress of this work.

I am thankful to Dr. K.S. Sudhakar, Senior Geologist, Mines & Geology, Belgaum, Karnataka state, Mr. B.R. Sreenivasa Rao, Geologist, National Mineral Development Corporation, Ongole, and to Mr. V.D. Raja-gopal, Asstt. Director of Mines and Geology, Vijayawada
for the help rendered during my field trips.

I am also thankful to my colleagues, Mr. R. Vijayakumar, Y. Yagama Reddy, K. Ashok Reddy and B. Vijayasaradhi and to my friends Mr. K.C.V. Subba Reddy, M. Veerabhadrappa, N.B. Sankarappa, K. Nagabhushanam, B. Janardhana, and S. Sreenivasulu, Cartographer, Department of Geography, for their cooperation in bringing out this thesis.

I gratefully acknowledge the University Grants Commission for financial help in the form of J.R.F. through a research project entitled "Geology of Termite Soils" sponsored to my guide Dr. K.A.V. Prasad, Principal Investigator, Environmental Geoscience Laboratories, Department of Geology, J.V. University College, Tirupati.
