ACKNOWLEDGEMENT

First of all I genuflect in reverence of god, the creator of this universe for providing me enough patience, jaunty, jocund and candour nature to prove the worth of myself in this fray world.

With deep regards, in the first place, I offer my sincerest gratitude to my venerable supervisor Dr. (Mrs.) Sandhya Bawa, for being a gracious mentor, for her excellent guidance, expertise, patience, kindness, encouragement and thoughtful criticism. Her inspirational thoughts made me understand that knowledge is central to intellectual work, her involvement with her originality has triggered and nourished my intellectual maturity that I will benefit from, for a long time to come. It is her benign benediction which gave me strength to reach this height of glory. I feel proud to have carried out the work under her supervision to put in my best in this work.

I am highly grateful to Dr. Gita Chawla as my co-supervisor for providing me valuable guidance, logical approach, and constant motivation.

I offer my sincere gratitude to late Prof. M.S.Y. Khan, a man of diverse expertise who always helped me by giving timely and valuable advice. His blessings and suggestions provide a source of inspiration to me.

I wish to express my profound sense of gratitude to the Dr. G. N. Qazi, Vice Chancellor of the University, Prof. Asgar Ali, Dean of Faculty of Pharmacy and Prof. Nadeem Siddiqui, Head of Department of Pharmaceutical Chemistry for providing me all the necessary facilities to carry out research work at this prestigious institute of International repute.

I owe my sincere thanks to Dr. Sushma Drabu for her sustained motivation and support during my research work.

I am highly thankful to all teachers, especially Prof. S.A. Khan, Dr. A.A. Siddiqui, Dr. M. Shaharyar, Dr. M. Amir, Dr. B. Ahmad, Dr. Mymoona, Dr. Asif Husain, Dr. Muntaz Alam, Dr. Shaquque and Dr. Ozaiz Alam for their blessings and suggestions, which were of immense help to me.

I am thankful to Prof. K.K. Pillai, Head, Deptt. of Pharmacology, for granting permission to carry out pharmacological screening of newly synthesized compounds. Thanks are due to Mr. Girdhar Singh Deora, Mr. Azad Rajaram and Mr. Arunav. M. Kalla from the Institute of Life.
Acknowledgement

Sciences, University of Hyderabad Campus, for performing COX-2 assay and Molecular Docking studies.

I am also thankful to IIT, New Delhi, CDRI, Lucknow for recording the spectra and Dr. Qadir, Head, IGIIB, New Delhi for providing bacterial strains.

I wish to thank Mr. Masood Ali, Sr. Lab Technician for his help and assistance during the course of my research work. I also thank all non-teaching staff of pharmaceutical chemistry department.

I am grateful to Mr. Mushak and Mr. Abid of Central Instrumentation Facility (CIF), F/o Pharmacy & staff of CIF, F/o Science for providing technical help in these labs.

I express my deep sense of gratitude to Dr. Bibhu P. Panda, who not only helped but also stood with me during antimicrobial screening in his labs.

I am also thankful to Officer-in-charge (Ex), Central Animal Facility, Jamia Hamdard, for providing animals to perform Pharmacological activities.

I shall remain indebted to staff of various libraries, NISCAIR; F/o Pharmacy Library, Jamia Hamdard; Central Library, Jamia Hamdard; National Medical Library, IIT Delhi; Central Science Library (Delhi University) for providing necessary facilities to carry out the literature work.

I am highly grateful to Dr. Suresh Kumar for providing me an inspiring guidance, encouragement, invaluable advice and moral support like big brother during the course of this work. Without you, I could not have survived the process. Thank you for creating a safe space for me. I owe enormous gratitude for you and I firmly believe you are a true star and will stand by me forever.

I consider myself lucky to have colleague Dr. Himanshu Gupta, senior colleague Dr. Darpan Kaushik and my friend, Jagdish who have supported me throughout the period of my research.

It gives me immense pleasure in acknowledging with sincere gratitude, the enthusiastic cooperation received from my colleagues especially Umesh, Jaseela, Ravneesh, Yaseef.

I am highly grateful to University Grant Commission, New Delhi (Govt of India) for the award of Rajiv Gandhi National Fellowship (RGNF & ESRF) in Engineering & Technology.
I would like to convey my special thanks to Omprakash, Lalit, Obaid, Rashid, for their help, support & continuous motivation. Thanks are due to Malay and Puneet of Dept. of Pharmacology, who helped me in performing animal studies.

I wish to convey my humble feelings of respect to my parents for their support and prayers. To my father Sh. Daripreet Singh and my mother Smt. Kamla Devi for their affection, care, inspiration and constant encouragement, which I obtained from them to pursue higher studies. They are always with me in my dreams and in actions. Their life and teachings have always been a source of inspiration to me in the journey of my life. In fact, I am short of words for their contribution in shaping my life, as they are the real architects of my life.

No words would be befitting enough to express my deep sense of admiration to my younger brothers (Harish Kumar & Nahar Singh), sister (Barkha ladder) and Jiju (Rajesh Ji) who deserve to be remembered for their loving affection and encouragement during the course of my studies at this university.

I would also like to thank all the people who have been involved directly or indirectly in the success of this work.

Words fall short when it comes to tell my loving and super-intellectual wife Jyoti. It was solely her motivation, encouragement and belief in me that made me believe to pursue the Ph.D work. She has supported me all through the thick and thin of life so far. She made me believe that we would accomplish many more things if we did not think of them as impossible. I have seen, thinking becoming things through her eyes.

I can’t forget the love, affection and support of my sweet angel daughter & son “Kirti & Tanishq”

Finally, I would like to thank “GOD” for all the small miracles and to accumulate it to become the bigger miracles of my life. Over the years, you have made me come out of that wishful thinking or imaginary craziness and helped me have a deeper understanding of my existence.

Rajiv Kumar
