11. Means and SDs of teaching effectiveness scores of science teachers of different communities

12. Summary of ANOVA of teaching effectiveness scores of science teachers of different communities

13. Means and SDs of teaching effectiveness scores of science teachers from families of varied sizes

14. Summary of ANOVA of teaching effectiveness scores of science teachers from families of varied sizes

15. Means and SDs of teaching effectiveness scores of science teachers working under different managements

16. Summary of ANOVA of teaching effectiveness scores of science teachers working under different managements

17. Means and SDs of teaching effectiveness scores of science teachers working in rural and urban schools and the results of 't' test

18. Means and SDs of teaching effectiveness scores of science teachers with varied attitude levels towards teaching effectiveness

19. Summary of ANOVA of teaching effectiveness scores of science teachers with varied attitude levels towards teaching profession

20. Means and SDs of teaching effectiveness scores of science teachers with different levels on cooperative attitude a dimension of aptitude in teaching

21. Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the aptitude dimension, cooperative attitude
22. Means and Sds of teaching effectiveness scores of science teachers with different levels on kindliness a dimension of aptitude in teaching

23. Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the aptitude in teaching dimension kindliness

24. Means and Sds of teaching effectiveness scores of science teachers with different levels on patience a dimension of aptitude in teaching

25. Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the aptitude in teaching dimension - patience

26. Means and Sds of teaching effectiveness scores of science teachers with different levels on aptitude dimension - wide interest

27. Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the aptitude dimension - wide interest

28. Means and Sds of teaching effectiveness scores of science teachers with different levels on aptitude dimension - fairness

29. Means and Sds of teaching effectiveness scores of science teachers who were varied on the aptitude dimension - fairness

30. Means and Sds of teaching effectiveness scores of science teachers with different levels on moral character a dimension of teaching aptitude

31. Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the aptitude dimension - moral character

32. Means and Sds of teaching effectiveness scores of science teachers with different levels on aptitude dimension - discipline

Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the personality trait, Factor-B

Means and SDs of teaching effectiveness scores of science teachers with different levels on Factor-C of 16 PF

Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the personality trait, Factor-C

Means and SDs of teaching effectiveness scores of science teachers with different levels of Factor-E of 16 PF

Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the personality trait, Factor-E

Means and SDs of teaching effectiveness scores of science teachers with different levels on Factor-F of 16 PF

Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the personality trait, Factor-F

Means and SDs of teaching effectiveness scores of science teachers with different levels on Factor-G of 16 PF

Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the personality trait, Factor-G

Means and SDs of teaching effectiveness scores of science teachers with different levels on Factor-H of 16 PF

Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the personality trait, Factor-H

Means and SDs of teaching effectiveness scores of science teachers with different levels on Factor-I of 16 PF
Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the personality trait, Factor-I

Means and SDs of teaching effectiveness scores of science teachers with different levels of Factor-L of 16 PF

Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the personality trait, Factor-L

Means and SDs of teaching effectiveness scores of science teachers with different levels of Factor-M of 16 PF

Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the personality trait, Factor-M

Means and SDs of teaching effectiveness scores of science teachers with different levels on Factor-N of 16 PF

Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the personality trait, Factor-N

Means and SDs of teaching effectiveness scores of science teachers with different levels on Factor-O of 16 PF

Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the personality trait, Factor-O

Means and SDs of teaching effectiveness scores of science teachers with different levels on Factor-Q1 of 16 PF

Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the personality trait, Factor-Q1

Means and SDs of teaching effectiveness scores of science teachers with different levels on Factor-Q2 of 16 PF
69. Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the personality trait, Factor-Q2

70. Means and SDs of teaching effectiveness scores of science teachers with different levels on Factor-Q3 of 16 PF

71. Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the personality trait, Factor-Q3

72. Means and SDs of teaching effectiveness scores of science teachers with different levels on Factor-Q4 of 16 PF

73. Summary of ANOVA of teaching effectiveness scores of science teachers who were varied on the personality trait, Factor-Q4

74. The gender composition of more and less effective science teachers and the value of chi-square

75. The composition of more and less effective teachers on the basis of their qualifications and the value of chi-square

76. The composition of less and more effective science teachers with regard to their experience and the value of chi-square

77. The composition of less and more effective science teachers on the basis of their marital status and the value of chi-square

78. The caste composition of less and more effective science teachers and the value of chi-square

79. The composition of less and more effective science teachers on the basis of their varied family sizes and the value of chi-square

80. The composition of less and more effective science teachers working under different managements and the value of chi-square
81. The composition of less and more effective science teachers with regard to their working place and the value of chi-square 243

82. The composition of less and more effective science teachers on the basis of their attitude towards teaching profession and the 't' value 244

83. The aptitude composition of more and less effective science teachers and the 't' value 244

84. Comparison of most and least effective science teachers 246

85. Profile similarity coefficient (r) of most and least effective science P=teachers 249

86. Means and SDs of independent variables and the simple correlations between the each one of the independent variables and dependent variable 250

87. Multiple (step-wise) regression analysis. Dependent variable, Teaching effectiveness, Independent variables; personal, demographic attitude and aptitude variables 252

88. Means and SDs of independent variables and the simple correlation between each one of the independent variables and dependent variable 258

89. Regression (step-wise) analysis. Dependent variable: Teaching effectiveness: Independent variables Personal, demographic and psychological variables 262
