ACKNOWLEDGEMENT

I thank Lord Siva for his indescribable grace and gift, without which this work would not have been accomplished.

With Dr. E. Murugan, M.Sc., M.Phil, Ph.D., P.G.B.C.S., Senior Lecturer, Department of Physical Chemistry, University of Madras, may be bestowed the credit of piloting and conceptualizing this piece of research. His constant encouragement and persuasive criticism through a few years of gestation and his uncompromising demand for logic in argument and presentation have benefited every page.

I wish to place on record my sincere gratitude to Prof. G. Kaithikeyan, Convener, Professor and Head, Department of Chemistry, Gandhigram Rural Institute (Deemed University), for providing me an opportunity to perceive my research at this department and for his keen interest and constant encouragement.

The credit for my achievement is due, in a big way by every member of my family. My deepest and loving gratitude to my beloved parents Mr. P. Ayyanar & Mrs. Lakshmi Ayyanar who have made invaluable sacrifices for educating me. I am also thankful to my beloved brother Mr. A. Baskaran, beloved sister Mrs. A. Latha and my beloved brother in law Mr. T. Dhanapal for their kind support and necessary help in my life.

It is a matter of great satisfaction to register my heartfelt gratitude to Prof. T. Balakrishnan, Vice Chancellor, Periyar University, Former Professor and Head, Department of Physical Chemistry, University of Madras (UOM), for providing me the facilities in the Department, and also valuable suggestion, guidance and critical comments which were of great help in successful completion of this work.

My sincere & heartfelt thanks to Prof. V. R. Vijayaragavan, Professor and Head, Department of Physical Chemistry, UOM, for his land help and valuable suggestion to complete my thesis work. I also thank Prof. J. Santhana Lakshmi Jeyadevan, Prof. K. Chandrasekara Filial, and Dr. E. J. Padmamalar Faculty of Physical Chemistry, for their encouragement and suggestion during the course of my research work.

It is my pleasure to thank Prof. P. C. Srinivasan for his critical suggestion/discussion to arriving the logical conclusion of reaction mechanism.
I expressed my sincere thanks to Dr. A. K. Mohanakrishnan, Department of Organic Chemistry and Br. V. Narayana, Lecturer, Department of Inorganic Chemistry, Br. A. Armstrong, Department of English, UOM, for their timely help rendered during the course of my work.

It is my immense pleasure to acknowledge my faculty members Prof. N. S. Nagarajan, Prof. M. Sundaravadivelu, Dr. M. G. Sethuraman, Br. K. Anbazhagan, Br. S. Ramesh, Dr. S. Meenakshi, Br. A. Anitha Pius, Br. K. P. Elango, Dr. S. Abraham John and all other teaching and non teaching members, Department of Chemistry, GRI, for their kind co-operation and help.

I take this opportunity to show my deep sense of gratitude Dr. M. Seenivasaperumal, Department of Chemistry, University of Hyderabad for recording spectra during my work.

It is my immense pleasure to thank my colleagues Mr. R. Rangasamy, Mr. P. Arunachalam, Mr. K. Thavamani, Mr. P. Gopinath, Mr. K. Muthu, Ms. B. Geethalakshmi for their kind co-operation and help at all times.

It is my pleasure to thank all the Non-teaching staffs Mr. S. Bhuddan, Mir. S. Santhanain and Mr. A. Bomink Xavier, Department of Physical Chemistry, UOM for their generous help.

I also thank Mrs. M. Krishnaveni, Department of Organic Chemistry, UOM for her help to record Mass analysis.

I express my gratitude to the authorities of RSIC, IIT Madras, CLRI-Chennai-20 and SIC, IISC-Bangalore for their help to record NMR, MALDI TOF mass, FAB mass, HRMS, elemental analyses and SEM analyses.

Finally, I expressed my sincere gratitude to each and every person who directly or indirectly helped me to complete this study.
