LIST OF PHOTOGRAPHS xx
LIST OF GRAPHS xxvi
LIST OF ABBREVIATIONS xxx

**CHAPTER – I Introduction**

1.1 LITERATURE FOR BOSWELLIA SERRATA 4
   1.1.1 Taxonomy of Boswellia serrata 4
   1.1.2 Vernacular names 7
   1.1.3 Botanical description 8
   1.1.4 Geographical distribution 8
   1.1.5 Traditional uses 8
   1.1.6 Phytochemistry 9
   1.1.7 Pharmacological actions of Boswellia serrata 12

1.2 LITERATURE FOR LIVER 16
   1.2.1 Anatomy 16
   1.2.2 Internal Anatomy of Liver 17
   1.2.3 Physiology 19
   1.2.4 Drug induced hepatotoxicity 21
   1.2.5 Diagnosis and treatment 25
   1.2.6 Liv-52 30

1.3 LITERATURE FOR GASTRO INTESTINAL TRACT 32
   1.3.1 Anatomy of stomach 33
   1.3.2 Phases of gastric juice secretion 34
   1.3.3 Regulation of gastric acid secretion 35
   1.3.4 Peptic ulcer disease 37
   1.3.5 Helicobacter Pylori 39
   1.3.6 Management of peptic ulcer disease 39
1.3.7  Standard drug  44

1.4  LITERATURE FOR URINARY SYSTEM  46
1.4.1  Functions of urinary system  47
1.4.2  External anatomy of kidneys  48
1.4.3  Internal anatomy of kidneys  49
1.4.4  Nephron  52
1.4.5  Physiology pf urine formation  53
1.4.6  Diuretics  55
1.4.7  Classification  55
1.4.8  Gout  58

CHAPTER – II MATERIALS AND METHODS  59-88

2.1  FOR BOSWELLIA SERRATA EXTRACTS  59
2.1.1  Procurement of material  59
2.1.2  Chemicals and drug used  59
2.1.3  Methodology  60
2.1.4  Procurement of male albino rats and mice  63
2.1.5  Acute toxicity studies  64
2.1.6  Effective dose of Boswellia serrata bark extracts  66
2.1.7  Effective dose of Boswellia serrata leaf extract  66
2.1.8  Effective dose of Boswellia serrata gum extract  67

2.2  FOR HEPATOPROTECTIVE ACTIVITY  68
2.2.1  Invitro  68
2.2.2  Invivo  70
2.2.3  Assessment of liver functions  71
2.2.4  Biochemical analysis  72

2.3  FOR ANTI-ULCER ACTIVITY  80
2.3.1  Methodology  80
2.3.2  Pyloric ligation model  80
2.3.3  Ethanol induced ulcer model  81
2.3.4  Aspirin induced ulcer model  81
2.3.5  Calculation of ulcerative score-ulcerative index  82
2.3.6  Determination of gastric volume  82
2.3.7  Determination of pH, Free acidity and Total acidity  83
2.4 FOR DIURETIC ACTIVITY 84
   2.4.1 Methodology 84
   2.4.2 Blood analysis 85

CHAPTER – III RESULTS 89-189
3.1 Phytochemical screening of Plant extracts 89
3.2 Results of HPTLC analysis 95
3.3 Results of Hepatoprotective activity 96
   3.3.1 Bark extracts 96
   3.3.2 Leaves extracts 98
   3.3.3 Gum extracts 100
3.4 Results of Anti-ulcer activity 127
   3.4.1 Bark extracts 127
   3.4.2 Leaves extracts 131
   3.4.3 Gum extracts 133
3.5 Results of Diuretic activity 173
   3.5.1 Bark Extracts 173
   3.5.2 Leaves Extracts 175
   3.5.3 Gum Extracts 176

CHAPTER – IV DISCUSSION 193-200
4.1 Hepatoprotective activity 193
4.2 Anti – ulcer Activity 196
4.3 Diuretic activity 198

CHAPTER – V SUMMARY/CONCLUSION 201-202
CHAPTER – VI REFERENCES 203-228
CHAPTER – VII PUBLICATIONS
