ANTONOVESKII, M. YA; BOLTYANSKII, V. G. & SARYMSKOV, T. A.

AYERBE, J. M.; DOMINGUEZ BENAVIDES, T.

BANACH, S.

BYNUM, W. L.

CARISTI J.

CHANG, C. C.

[06] On a fixed point theorem of contractive type. 

CHANG, S. S.

[07] A common fixed point theorem for commuting mappings. 

CHANGE, S. S. AND LAU, Q.

[08] Set valued Caristi fixed point theorem and 
Ekeland's variational principle, 

CHANG S. S., CHO Y. J., LEE B. S., JUNG J. S. AND KANG S. M.

[09] Coincidence point theorems and minimization 
theorems in fuzzy metric space. 
In Fuzzy sets and systems (to appear).

CHO, Y. J.

CHO, Y. J., MURTHY, P. P. AND STOJAKOVIC, M.

[11] Compatible mappings of type (A) and common fixed points in Menger spaces. 
CIRIC, L.J.B.

DAS, G. AND DABATA, J.P.

India J. Math. 27 (1985), 49-51.

DAS, K.M. AND NAIK, K.V.

DOINGUEZ BENAVIDES, LOPEZ ACEDO AND XU H. K.

[16] Weak uniform normal structure and iterative fixed points of nonexpansive mappings.

DOWING D. AND KIRK, W.A.

[17] A generalization of Caristi's theorem with application to nonlinear mapping theory.
Some properties of the characteristic of convexity to fixed point theory,

Sul les problèmes variationnels.

On the variational principle.

Common fixed point theorem for commuting mappings.

Common fixed points of four mappings.

Common fixed points of two pairs of weakly commuting mappings.

2-metrische Räume und ihr topologische Struktur.
GAHLER, S.

[26] Zur geometric 2-metrische Räume. 

GOEBEL, K. AND KIRK, W.A.

[27] A fixed point theorem for transformations whose iterates have uniform Lipschitz constant. 
Studia Math. 47(1973), 135-140.

HARDY, G. E. AND ROGERS, T. D.

[28] A generalization of a fixed point theorem of Reich. 

ISEKI, K.

[29] On Banach theorem on contraction mapping. 

JUNG, J.S., CHO, Y.J. AND KIM, J.K.

[31] Minimization theorems for fixed point theorems in fuzzy metric space and applications. 
JUNGCK, G.

[31] Commuting mappings and fixed points.

[33] Periodic and fixed points and commuting mappings.

[35] Compatible mappings and common fixed points.

[37] Compatible mappings and common fixed points(2).

[36] Common fixed points and compatible in compacta.

JUNGCK, G. AND PATHAK, H.K.

[37] Fixed points via "BIASED MAPS".

JUNGCK, G., MURTHY, P.P. AND CHO, Y.J.

[38] Compatible mappings of type (A) and common fixed point.

KALEVA, O. AND SEIKKALA, S.

KANNAN, R.

[40] Some result on fixed points.

[41] Some result on fixed points (II).

KRASNOSEL'SKII M.A., ZABREIKO, P.P.

LIFSCHITZ, E.A.

[43] Fixed point theorems for operators in strongly convex spaces.
(In Russian).

LIM T. C., XU H.K. AND XU Z.B.

LIONS, T.L. AND STAMPACCHIA G.

MAIA, M.G.

[46] Un osservazione sulle contrazioni metriche.
Rend. Sem. Mat. Padova 40 (1968), 139-143.

MARTIN (jr.) R.H.

[47] Nonlinear operators and differential equations in Banach space.

MERCIER, B.

Lecture Note Tata institute of fundamental Research, Bombay (1979).

MIZOGUCHI, N. AND TAKAHASI, W.

[49] Fixed point theorems for multivalued mappings on complete metric spaces,

MURTHY P.P, CHANG S.S., CHO Y.J. AND SHARMA B.K.

[50] Compatible mappings of type (A) and common fixed point theorem.
[51] Extension of some fixed point theorem of Rhoades.

[53] An extension of the Caristi-Kirk fixed point theorem.

[54] Extension of a fixed point theorem of Meir and Keeler.

[56] Sur les courbes définies par les équations différentielles.
    Jour. De. Math. 2 (1866).
POPA, V.

[57] Common fixed point of commuting mappings.

[58] A common fixed point theorem of weakly commuting mappings.

RAKOTCH E.

[59] A note on contractive mappings.

RHOADAS, B.E.

[60] A comparision of various definitions of contractive mappings.

[61] Extension of fixed point theorem of ciric.

RHOADESB., E., PARK, S. AND MOON, K.B.

RHOADES, B.E., AND SESSA, S.

[63] Common fixed point theorems for three mappings under a weak commutativity condition.

ROBINSON, S.M.

[64] Analysis and computation of fixed points.
Academic press (1980).

SALTAWHITE, R.E.

[65] Quasi pseudometrics over Tikhonov semifield and fixed point theorem.
Dissertation University of Missouri Rolla (1972).

SEHGAL, V.M.

[66] A fixed point theorem for mappings with iterate.

SESSA, S.

[67] On weak commuting condition of mappings in fixed point consideration.

SHARMA, B.K.

[68] Some fixed point theorems.
SHARMA, N.

[69] Some result on fixed point theorem.

SIEGEL, J.

[70] A new proof of Caristi's fixed point theorem.

SING, S.L., HA, K. S. AND CHO, Y. K.

[71] Coincidence and fixed points of non linear Hybrid contraction.

SINGH S.L. AND PANT, B.D.

[72] Fixed point theorem for commuting mappings in probabilistic metric spaces.
Honam J. 5 (1983), 139-149.

SINGH, S.L. AND SINGH, S.P.

[73] A fixed point theorems.
Indian Pure Appl. Math. 11 (1980), 1584-1586.

SMART, D.R.

[74] Fixed point theorems.
SMARZEWSKI R.

[75] On the inequality of Bynum and Drew.

SWAMINATHAN S. (EDIT.)

[76] Fixed point theory and its applications

(Proceding Seminar).

TAKAHASHI, W.

[77] Existence theorem generating fixed point

theorems for multivalued mapping. Fixed point

Theory and Applications.

(M.A. Thera and J.B. Baillon, eds.), Pitman Research

TAN, K.K. AND XU, H.R.

[78] Fixed point theorems for Lipschitzian semigroups

in Banach spaces.

TARTER, L.

[79] Nonlinear analysis.

Lecture notes, Orsay centre, Paris University

(1978).
THAKUR B. S. AND JUNG J.S.

[80] Fixed points of a certain class of mappings in uniformly convex Banach spaces.

UME, J.S.

[81] Some existence theorems generating fixed point theorems on complete metric spaces.

WALTMAN, P.

WEBB J.R.L., ZHAO W.

[83] On connections between set and ball measures of noncompactness.

XU H. K.

[84] Inequalities in Banach spaces with application.
YEH C.C.

[85] Remark on common fixed points.
Tamkang J. Math. 3(1972), 75-76.

[86] On common fixed points of continuous maps.

ZEIDLER, E.

[87] Nonlinear functional analysis and its applications, I-fixed point theorems.
Springer Verlag, New York (1986).
LIST OF RESEARCH PAPERS

DHAGAT V.B.

DHAGAT V.B. AND SHARMA

SHARMA B.K. AND DHAGAT V.B.

SHARMA B.K., DHAGAT V.B. AND GUPTA, GUPTESHWAR

[12] Common fixed point for sequeces of mappings under R-weakly commutativity, Rev. of Res. Yugoslavia (communicated).

SHARMA B.K., DHAGAT V.B. AND GUPTA, GUPTESHWAR

SHARMA B.K., GUPTA, GUPTESHWAR AND DHAGAT V.B.
