ACKNOWLEDGEMENT

I feel great pleasure in expressing my deep sense of gratitude and respect to my guide Dr. (Mrs.) Anjana P. Desai, Head, Department of Geography, Gujarat University, Ahmedabad, for her intense guidance, tremendous help and care in research work with inspiration and encouragement for the development of efficiency and confidence in my life.

I am also thankful and feel obliged to my teacher Dr. (Mrs.) Shikha Lahiri, Head, Department of Geography, Vivekananda Mahavidyalaya, Burdwan, for her constant inspiration and encouragement from the early stage of my career.

I express my thanks to my reverent teachers, Dr. K.M. Kulkarni, Dr. N.G. Dikshit, Dr. (Mrs.) Manjula Leng, for providing an academic environment at all times.

I am highly indebted to Mrs. Avantika Prajapati, Mrs. Harsha Shukla, Dr. (Mrs.) Sulbha Khanna and Mrs. Chandra Subramanian, Department of Geography, Gujarat University, Ahmedabad for their helpful suggestions and encouragement - throughout the work. I am highly thankful to Dr. Sailesh Naik, and K. Sudha, Space Applications Centre (ISRO), Ahmedabad, for their suggestions and technical assistance in the field of mapping through remote sensing. I am very much thankful to Shri Shirish Bharadwaj for academic discussions.

I express my deep feeling of gratitude to Dr. Abhijit Sarkar and Mrs. Mitali Sarkar for their valuable suggestions and advice in work and constant inspiration in life.

My thanks are also due to Mr. Vishnubhai Thakkar for his help and suggestion in data processing, developing computer programme and handling GIS of GRAM. I am also thankful to Mr. Chaudhuri, IIT, Bombay for his valuable suggestion related to GIS package of GRAM.

I wish to extend my sincere thanks to Shri Sanat Mehta and Shri Hasmukh Patel, Shramik Vikash Sansthan, Ahmedabad for their enormous help to know the Bhal region from the grass roots.

It gives me great pleasure to put on record assistance of various Government and non-government organisations for their helping attitude in relevant information and data for this study. I express my thanks to Space Applications Centre (ISRO), Ahmedabad, Survey of India, Census of India, Geological Survey of India, Central Salt and Marine Chemical Research Institute,
Bhavnagar, Department of Soil and Landuse Survey, Department of Water Resource, Department of Agriculture, Shramik Vikash Sansthan, Uthan and Mahiti, Geo-Tech Bharat Private Limited and District, Taluka and Village level Offices.

I am highly indebted to the villagers of the Bhal region whose help and hospitality enabled me to reach down to the earth.

I specially appreciate the assistance of Manoj Kumar for his constructive ideas and personal interest in the neat get up of the thesis.

Lastly, I would like to express my love and respects to my family, especially to my parents, brothers and sister for their constant inspiration and encouragement in every stage of my progress in life.

Gautam Kumar Bhattacharya
