ACKNOWLEDGEMENT

"Each individual creature on this beautiful planet is created by God to fulfill a particular role. Whatever one achieves in life is through His help and an expression of His will. God showered His grace on me by directing towards the right path and right people. When I pay my tributes to these fine people, I am merely praising His glory."

Acknowledging a dissertation work represents the help rendered by all those who have been inspirational and supportive throughout the work undertaken and endowed with the most precious knowledge to see success in this endeavour. My work bears the imprint of all those people I am grateful to. It is with a sense of pride and pleasure that, I humbly look back to acknowledge those who have been a source of encouragement in my entire endeavour.

I acknowledge my overwhelming gratitude and immense reverence to my research guide Dr. M. N. Patel, Professor, Department of Statistics, Gujarat University, under whose guidance, constant encouragement and untiring patience I have the proud privilege to accomplish this entire work. I offer my humble and heartfelt appreciation for his very affectionate and kind attitude, constant encouragement and keen interest throughout my research work. I am greatly indebted to him for the moral support, unlimited love and constructive criticism throughout the course of the work, which enabled me to gain experience in working confidently. His enormous enthusiasm, invaluable guidance and commitment to research of the highest standards made my attempts as authoritative as possible.

With all sincerity and deep sense of gratitude I express my indebtedness to Dr. R. G. Bhatt, Head of the Department, Department of Statistics, Dr. C. D. Bhavsar and Dr. Pravinder for their valuable suggestions and from whom I learned a lot during my research work.

It is also my pleasure to pay cordial thanks to Dr. Ruteshbhai R. Shah, Principal, K. K. Shah Jarodwala (K.K.S.J.) Maninagar Science College, Rambaug, Ahmedabad, for his support in doing
his needful in administrative aspects, so that I could submit the thesis to the university.

It is with deep sense of gratitude, I offer my most cordial and humble thanks to the Management of J. L. trust for providing all the facilities in carrying out this work.

It gives me immense pleasure to acknowledge Prof. R. L. Bhila, Prof. N. J. Mehta, Prof. H. I. Sarvaiya and Prof. H. J. Shah for their constant encouragement and support during the write up of my thesis.

My cordial thanks to all faculty and staff members of K. K. Shah Jarodwala Maninagar Science College and Department of Statistics, Gujarat University, for their assistance and kind cooperation.

I would be failing in my duties, if I do not thank V. R. Rudani (Ex Principal), Prof. J. R. Dave, Principal (Dr.) Shailesh Bhavsar and Prof. N. N. Roghelia (Retd.) who were always there to give me needed help and guidance.

Many thanks to Prof. H. I Sarvaiya and Prof. S. H. Sarvaiya whose editing suggestions, precise sense of language and support during the write-up stage, enabled to clear the path towards thesis completion.

I am forever grateful to my parents, Amrutbhai and Hasuben Gajjar for their constant and unconditional support at each turn of the road. The creativity, determination and sense of joy with which they respond to life’s challenges have led me to seek this in others. I express my gratitude to my father for the foresight and values which paved the way for this privileged education.

I wish to express my devoted thanks from the bottom of my heart to my Father-in-law, Mother-in-law, Brothers-in-law, Sisters-in-law, paternal and maternal relatives and friends whose love, blessings, good wishes, and prayers have always been a source of courage and confidence for me and the key to my success.
Words cannot fully express my appreciation to my lovely daughter Devanshi for her patience, who missed me and suffered a lot during the write up of the thesis.

Far from what words would express, to have someone who stood beside me, encouraged me in every step, and consoled me, I am grateful to her for being unselfishly. She let her intelligence, passions, and ambitions to fulfil my dream for which I owe her eternal debt. Words fail me to express my appreciation to my life partner whose dedication, love and persistent confidence in me, has taken the load off my shoulder. So my final thanks go to my dear wife Anuradha who was the inspiration behind my thesis.

I am also thankful to all those who have been of immense help to me, either directly or indirectly and whose names I have unknowingly missed out, in making this project a worthy endeavour.

Life blessed me with the opportunity to meet Professor M. N. Patel. This thesis is a small tribute to an exceptional man from a student still anxious to learn from him.

Mr. Ketan A. Gajjar
