Acknowledgement

It is the knowledge that clears the illusions for better understanding of the nature as it works, like the light that makes the un-treaded paths visible in the jungle of ideas. It is always encouraging and prudent to thankfully acknowledge the persons that guide and goad us towards the aims and objectives while on way. Touching the first pedestal of submitting my thesis for Ph.D. Degree, I would like to seek the blessings of, and express my deep appreciation from the core of my heart to Padma Shri Prof. Rameshwar Nath Koul Bamezai, for allowing me to do my three months dissertation-work at the National Center of Applied Human Genetics, Jawaharlal Nehru University in the year 2008, and later, motivating and allowing me to continue my work. I am extremely thankful to Prof. P K Tiwari, of Centre for Genomics, Molecular and Human Genetics, Jiwaji University, Gwalior, for guiding me through my Post Graduation, and bringing me under the discipline of Prof. R N K Bamezai.

Humane, gentle, compassionate, uncompromisingly affable, temperate and persuasively understanding teacher as he is through his research and teaching experience of over 35 years, Prof. R N K Bamezai prunes a raw mind with a rare verve, helping to blossom into a free inquisitive student. He is an inspiration to the system as a whole, besides the students under his able guidance - the qualities I would like to imbibe into my life and behavior. While I express my sincerest thanks to him for honing my research skills and allowing me to do my Ph.D. work under his guidance at Shri Mata Vaishno Devi University (SMVDU), Katra, Jammu and Kashmir, I am indebted to him for his guidance in realizing my scientific inquisitiveness, and having reposed unstinting faith in my abilities.

I would like to convey my heartfelt thanks to Shri Mata Vaishno Devi University for providing an ideal, serene and calm environment to grow as a person while pursuing my degree. I also thank the present Director at Shri Mata Vaishno Devi University (SMVDU), School of Biotechnology, Prof. V. Verma, Dean Dr. V.K. Bhat and all the previous directors and deans for providing excellent facilities in the School
of Biotechnology at Shri Mata Vaishno Devi University (SMVDU). I also appreciate the help and support provided by Mr Vinod Sharma and all the other faculty members of the School.

I thankfully acknowledge the help provided by the Department of Science and Technology, Government of Jammu and Kashmir, and, National Center of Applied Human Genetics (NCAHG), Jawaharlal Nehru University, New Delhi, by way of financial assistance.

I express my sincere thanks to Dr. Gaurav Agarwal, Professor, Endocrine & Breast Surgery, Sanjay Gandhi Post Graduate Institute of Medical Sciences(SGPGIMS), Raebareli Road, Lucknow, INDIA, and his team for their invaluable help in providing patient samples and their clinical details. I shall always pray for the welfare of all cancer patients, especially the Breast Cancer Patients whose samples were used during the study.

I value the support of National Centre of Applied Human Genetics, School of Life Sciences, Jawaharlal Nehru University, New Delhi, (NCAHG, SLS, JNU), for allowing me to use their state-of-art-facility while conducting experiments in their Labs.

I express my sincere thanks to my colleagues Dr. Niloo Srivastva, Dr. Sailesh Gochhait, Dr. Sawarkar Sharma, Dr. Ekta Sharma Dr. Shweta Singh, Dr. Shweta Aggarwal, Dr. Anita Koul, Dr. Ranjana Paul, Dr. Vibhor, Dr. Shafat Ali, Dr. Prithvi Sharma, Ms. Anita Behura, Ms. Mamta, Ms. Surabhi Dar, Mr. Yoginder Pal Singh, Ms Nabodita Koul, Ms. Rupali Chopra, Ms. Shilpi Chattopadhaya, Ms. Archita, Mr. Amit Srivastava, Mr. Kalai, Mr. Askander, Mr. Rajnish Kumar Singh, Mr Bhupinder Kumar, Mr Kailash Chander Mangalhara, Mr Faheem, Mr Vishnu, Ms Noor Chaman, Ms Shazia Haider, Mr Gaurav, P.Gopinath and Mr Farid Ahmad Siddiqui for their guidance, support and invaluable help in completing my work. I will always remember the great experience I had working with them and the care they have shown.
I am also thankful to Mr. Somnath Dutta, Mrs. Rita Raina, Mr Sonu Gautam for their invaluable administrative support during my work. I also acknowledge Mr. Kamata Nath Tripathy and Mr. Ganshyamji for their excellent laboratory assistance, and thanks to Anil Kumar Verma, Anupama Singh, Aparna Pandey, Ashutosh Trehan, Aswathi Menon, Deepanshi Dhar, Deepika Srivastava, Dileep Kumar Verma, Etika Goyal, Manish Kumar Gupta, Monica Pandey, Nipun Mohan, Nishat Akhtar, Pawan Kishor Singh, Piyush Baindra, Priyanka Chaudhary, Richa Sharma, Saika Siddiqui, Samra Khan, Shivangi Shivpuri, Shweta, Shweta Nim, Subeer Kangsabanik, Sudeepa Srichandan, Sugandha Dhar, Utkarsh Kapoor, Vatsala Koul, Deepika, Aroma Kaul and a number of dissertation students, and my friend Geeta, who made their contributions and helped in maintaining a creative and positive lab environment.

Anything I say about my parents, especially my mother, would be an under-representation of the facts, of the help, love, affection and encouragement they bestowed upon me. When results elude, facts distance themselves from the reach, cloudiness dawns and haze tends to overtake the light of day, they always understand my state of mind and pat me out of that slumber. Their firm but kind hearted personality has helped me to be steadfast and stand by myself. I am indebted to my grandparents for their blessings and encouragements.

I would like to thank every person who helped me directly or in directly and whose name couldn’t find a mention here. I will always remain grateful to them. Above all, thanks to Almighty God for giving me strength and courage all these years and taking care of all my needs.

(Siddharth Manvati)
(January, 2013)
