ACKNOWLEDGEMENT

The author wishes to express his grateful appreciation to Dr. H. D. Badami under whose guidance this study was carried out. He has proven to be most generous with time, amazingly patient, and encouraging at just the right moment.

Thanks are also due to the Principals of various colleges, Inspector General of Prisons of the Gujarat State, Superintendents of the Sabarmati Central Jail, and Psychologists and Psychiatrists for providing necessary facilities and suggestions in this study.

Hearty thanks are extended to the students, prisoners and psychiatric patients, without whose cooperation the present work would not have seen the light of the day.

A word of appreciation is also extended to the individuals who have contributed to this study in time, effort, knowledge and encouragement.
