LIST OF TABLES
Table 1  Food items approved for radiation processing in India under PFA Act rules.  32

Table 2  Some requirements of an identification procedure for irradiated food.  34

Table 3  Potential detection methods for irradiated foods, status and products studied.  35

Table 4  The food commodities studied.  49

Table 5  Spin Hamiltonian parameters of gamma irradiated induced EPR signals observed in soybean (skin part) treated with 1 kGy dose.  95

Table 6  Hamiltonian parameters of the EPR signals for irradiated Aswagandha.  143

Table 7  Peak height ratio of high temperature peak to low temperature peak with increasing temperatures of pre-irradiation annealing.  156
