ACKNOWLEDGMENTS

I record my gratitude and indebtedness to Dr. M.H. Ramnathan, Director, Environmental Planning, Department of Science and Technology, New Delhi for suggesting this problem and for his invaluable guidance, helpful suggestions and constant encouragement throughout the course of present investigations.

I express my deep sense of gratitude to Dr. S.K. Chatterjee, Director of the National Institute of Occupational Health (NIOH), Ahmedabad and Dr. O. Sopalan, Director General, Indian Council of Medical Research (ICMR), New Delhi for providing the necessary facilities during the entire tenure of my work and for the permission accorded to me to carry out the present studies.

I am also grateful to Dr. B.L. Lal, Director, Physical Research Laboratory (PRL), Dr. Somayajula, B.L., Head, Chemistry Section, PRL and Dr. H.M. Sarin, Scientist at PRL, Ahmedabad, for facilitating the work on the Atomic Absorption Spectrophotometer in their laboratory.

My cordial thanks are also due to Dr. B.J. Parikh, M.D., NIOH for his suggestions and constant help in the work; to Mr. R.S. Patel, MD, NIOH for his assistance in sample collection and preparation; to Mr. P.R. Malviya, MD and Mr. V.G. Patel, MD, NIOH, for their help in statistical analysis of the data; and to Dr. R.C. Gupta, MD, NIOH for going through the manuscript critically.

My sincere thanks are also due to the staff of the Institute specially of the Industrial Hygiene Division whose help was always available to me.

Finally the cooperation of the management and the workers of the industries included in the studies, is most gratefully acknowledged.

Ahmedabad,
June 20, 1978. (G.S. Pandya)

*Formerly Assistant Director, Environmental Hygiene and Work Stress Group, NIOH, Ahmedabad.
