List of Figures and Tables

- Figure-1  • Use of request patterns by learners and native speakers of Arabic and English in the four situations
- Figure-2  • Nonnative speakers compared with native speakers in the use of modals in requests in the four request situations
- Figure-3  • Use of hearer- and speaker-perspective by native subjects and learners
- Figure-4  • Use of “please” in different positions in head acts by both
- Figure-5  • The correlation between ‘can’ in EL1 and ‘mumkin’ in AL1 learners and native group
- Table-6  • Comparison of the native and non-native subjects with respect to their use of lexical and grammatical pragmatic indicators
- Figure-7  • Invitation patterns by interlanguage users
- Figure-8  • Invitation strategies by native speakers of English
- Figure-9  • IFID formulas in EL2, EL1, Arabic and Indian E. data
• Figure-10 • Modifications of IFIDs in situation-1 Arabic and Indian E. data

• Figure-11 • The frequency of occurrence of “taking on responsibility” strategy formulas in S-1

• Figure-12 • The frequency of occurrence of “offer of repair” and “concern for the hearer” strategies in situation-1

• Figure-13 • Apology Strategies as used in situation-2 by all the groups

• Figure-14 • IFIDs as used by all the groups groups in the four data sets in situation-3

• Figure-15 • The use of ‘upgraders’ in situation-3 by the three groups

• Figure-16 • The use of Adjuncts and Softeners in the four data sets in correction situation-1 (correcting another of equal status) in the four data sets in situation-3

• Figure-17 • Realization patterns of the “main body of the correction speech act” in the four data sets in correction situation-3 (correcting a professor)

• Figure-18 • The use of Adjuncts and Softeners in the four data sets in correction situation-2 (correcting a Professor).

• Figure-19 • Realization patterns of the “main
body of the correction speech act” in the four data sets in correction situation-2 (correcting a professor)

• Figure-20

• The use of Adjuncts and softeners in the four data sets in correction situation 3 (correcting a person of a lower-status position).

• Figure-21

• Realization patterns of the “main body of the correction speech act” in the four data sets in correction situation-3 (correcting a person of a lower-status position)

• Figure-22

• Comparing the three situations with regard to the use of adjuncts and softeners in the four data sets.

• Figure-23

• Comparing the three situation with regard to the use of realization patterns of the main body of the speech act of correction in the four data sets.
I must express my appreciation to my many colleagues and friends who helped in collecting the data of this study, provided me with material, gave their comments and assisted me in a myriad of ways.

I also offer my sincerest thanks to all the teachers of the department of linguistics, to the library assistant and to the office staff who helped so much at every stage.

And thanks to every one who generously gave their advice and made comments and suggestions which helped in bringing this work to fruitions.

In the end, I would like to express my deep sense of appreciation for the cooperation and support I received from my better half, my wife. She along with my three kids: Baraa, Alaa and Anas suffered a lot and showed strong patience till the last step of my research.
