Acknowledgment

First and foremost, I would like to thank Almighty God for his continuous support in this long journey.

“Gratitude is not a thing of expression, it is more a matter of feeling”.

I wish to place on record my deep and sincere gratitude to my reverend teacher and guide, Dr. Mamta Kaushal Mokta under whose benevolent guidance and supervision the present study was undertaken and completed. His wide range of knowledge, enlightened guidance, sympathetic attitude encouragement, valuable suggestion and healthy criticism has enabled me to accomplish this research work. A special word of thanks is due to him, as it is who originally conceived the idea of topic under study and patiently nurtured it to its realization.

I am thankful to Prof. S.K. Mahajan Chairperson, Dr. S.S. Chauhan and Dr. Simi Agnihotri, for providing guidance and kind cooperation whenever it was needed during the completion of research.

I am thankful to the Librarians staff of Himachal Pradesh University of extending all co-operations consulting the research literature and internet facility whenever required.

(Shradha)
