ACKNOWLEDGEMENTS

Foremost, I would like to express my sincere gratitude to my supervisor Prof Lt Col A Ravi Kumar, HOD, Dept of ENT, Head and Neck Surgery, SRU for guiding me throughout the thesis. If not for his mentoring, supportive stand and encouragement, this work would not have been possible. His guidance helped me throughout my research and writing of this thesis. I could not imagine having a better supervisor for my PhD study.

I am grateful to Prof B Rajashekar, Dean, MCOAHS, Manipal University for being Co-guide of this study. Amidst his busy schedule, he readily accepted me as his student and provided me continuous support. I was very fortunate to get a chance to work with such a great personality like him.

I am extremely thankful to Dr Kalyani Mandke, Director, Mandke hearing services, Pune for being my research advisor. Her expertise, understanding, and patience, added considerably to my doctoral experience. A special thanks to her for all the painstaking travel she had done because of me.

My heartiest gratitude to Prof Roopa Nagarajan, Vice principal- Faculty of AHS, Course Chairperson- Dept of SLHS, SRU for her permission to conduct the study in the dept. of SLHS. Mam you are a tremendous mentor for me. Your advice on both research and my career have been priceless.

My special thanks to Prof W B C Sathiyasekaran, Dept of Community Medicine, Prof Binu Ninan, HOD, Dept. of Neonatology and Prof Prakash Boominathan, Dept. of Speech Language and Hearing Sciences, SRU for their timely suggestions at various levels of my thesis work. I deeply appreciate the value of their help from the bottom of my heart.

I would like to extend my gratitude to Dr.Padmasini, HOD, Dept. of Pediatrics, SRU; Dean, Rajiv Gandhi Medical College, Chennai; HOD, Dept. of Otorhinolaryngology, Rajiv Gandhi Medical College, Chennai; Mr Ranjith, Principal, MERF Institute of Speech and
Hearing, Chennai; Dr. Ravi Ramalingam, Director, KKR ENT Hospital, Chennai; Principal, Balavidyalaya school for young hearing impaired, Chennai; Principal, Little flower school for the deaf, Chennai for permitting me to perform data collection in their institutes.

Many thanks to Mr Vignesh and Ms Jaya, Institute of Speech and Hearing, Rajiv Gandhi Medical College, Chennai, Ms. Suma, Institute of Child Health, Chennai, Ms. Kala, MERF Institute of Speech and Hearing, Chennai, Ms. Deepa, Balavidyalaya school for young hearing impaired, Chennai, Ms. Geetha, KKR ENT Hospital for their valuable help in facilitating data collection.

I can’t forget the help in review of literature and care shown by Bala, Pauline and Aravind towards my PhD and also useful discussions with my Co-PhD candidate Dr. Raghunandan. I would also like to thank Mr. Venkatesan for providing statistical assistance.

I record my sincere appreciation of my department colleagues Perumal, Savitha, Daisy, Anitha, Amudhu, Prathiba, Subramanian, Vijay, Vidya Ramkumar, Jayashree, Krupa, Shenbagavalli, Madhavi, Deepak, Aishwarya, Muthuselvi and Satya for being with me throughout and substituting responsibilities at many instances to facilitate my research work. I promise to reciprocate it. A special mention for Shenbagavalli, Krupa and Ms. Cynthia (Department of English) for proof check.

I would like to thank my parents and sister’s family for the support they provided me. If not for their prayers and love, I would not be now where I am. I must acknowledge here my wife for constant reminders to keep up the pace of PhD work and editorial assistance. Words cannot express how grateful I am to my mother-in-law, father-in-law, for all of the sacrifices and prayers that they’ve made for me.

HERAMBA GANAPATHY.S
