Acknowledgements

Foremost, I would like to express my sincere gratitude to my supervisors Prof. Joyanti Chutia and Dr. Arup Ratan Pal for the continuous support of my Ph.D study and research, for their patience, motivation, enthusiasm, and immense knowledge. Their guidance helped me in all the time of research and writing of this thesis. I could not have imagined having a better Advisors and mentors for my Ph.D study. Besides my supervisors, I would like to thanks Prof. Heremba Bailung, Dr. Nirab Chand Adhikari for their valuable suggestions and support during my Ph.D work.

I express by heartiest gratitude to Prof. Dinkar S. Patil, Bhabha Atomic Research Center, Mumbai. A person with an amicable and positive disposition, Sir has always made himself available to clarify my doubts despite his busy schedules and I consider it as a great opportunity to learn from his research expertise.

I am also very thankful to Prof. Narendra Nath Dass, Dr. Mujibur Khan, Dr. Dipali Devi, Dr. Neelotpal Sen Sarma, Dr. Debashish Choudhury and all the other scientists and faculty members of IASST for their kind support, invaluable guidance and encouragement throughout the course of my research work.

Great thanks to Dr. Arup Jyoti Choudhury for his expertise, support, encouragement and invaluable guidance during my work and showing the techniques to characterize and analyse the samples.

My lab mates and friends Mahananda, Aziz and Bhabesh have all extended their support in a very special way, and I gained a lot from them, through their personal and scholarly interactions. I also acknowledge my seniors Sumita ba, Sankar da, Hemen da, Manoj da and Samiul da for their well wishes.
I express gratitude to Mr. Lelin Gogoi for his administrative and technical help along with good wishes. During my work in workshop or to prepare some small devices Swargiary da and Bipul da are always ready to help me and I express my gratitude to them. No research is possible without the Library, the centre of learning resources. I take this time to express my gratitude to all the library staff for their services. I would also like to thank all the research scholars, Registrar, FAO, administrative staff and all other members of IASST for their help, cooperation and support.

I greatly acknowledge the financial support provided by the Board of Research in Nuclear Sciences, Department of Atomic Energy (DAE); Department of Science and Technology (DST) Government of India and Council of Scientific and Industrial Research (CSIR) Government of India. It is my privilege to thank BARC, Mumbai; Department of Physics, Gauhati University; Tezpur University, Tezpur; Indian Institute of Science (IISc), Bangalore; National Chemical Laboratory (NCL), Pune; for providing necessary technical and sample characterization support. I owe a lot to my parents, who encouraged and helped me at every stage of my personal and academic life, and longed to see this achievement come true. Warmest thanks to my elder sisters (Kalpana and Sapna) and their spouses (Pradip Barua and Nipen Baruah), my lovely younger sister (Pinki), nephews (Abhinav and Priyanshu), niece (Kritika). Finally, I am very much indebted to my husband, Mother-in-law and late Father-in-law who supported me in every possible way to see the completion of this work.
