ACKNOWLEDGEMENTS

At the outset, I should bow my head to the Almighty God for giving me strength in taking up this research work and completing it to my satisfaction.

A journey is easier when you travel together. Interdependence is certainly more valuable than independence. This thesis is the result of four and half years of work whereby I have been accompanied and supported by many people. It is a pleasant aspect that I have now the opportunity to express my gratitude for all of them.

I express sincere appreciation to Prof. Kaleem Mohammed Khan for his guidance and insight throughout the research. He was always there to listen and to give me the best of his advice. He showed me different ways to approach a research problem and the need to be persistent to accomplish any goal. He is most responsible for helping me complete the writing of this dissertation as well as the challenges of research that lies behind it. He taught me how to write academic papers, made me a better programmer, and instil confidence in me when I doubted myself, and brought out the good ideas in me. Without his encouragement and constant guidance I could not have finished this research work. He was always there to meet and talk about the various research problems and dimensions, my ideas, reading the manuscripts of chapters. I am also thankful to Mrs Shakeela Kaleem and Miss Fariha Kaleem with whom I could express my feelings and problems and they were always there to help me out.

I extend my gratitude to Prof. Javed Akhtar “Dean Faculty of Management Studies and Research” for extending his constant support and guidance whenever it was required.

I should be failing in my duty if I do not place on record my gratitude to, Dr. Mohammed Naved Khan for his valuable suggestions and comments, for helping me in analyzing part of my research and sparing his valuable time.
I wish to express my gratitude to my guardian and mentor Roshi bhai who was always there to help me in every task especially during my father illness till he expired in India.

The acknowledgement would remain incomplete if I didn’t place the name of Mr.Arif.Mohd.Khan and Mrs.Reshma Arif for their constant support, encouragement and providing numerous facilities.

I am thankful to all colleagues and friends who made my stay at the university a memorable and valuable experience. My special thanks go to all the staff members in the Department of Business Administration specially Riaz bhai, Sajida, Umair bhai and Zeeshan bhai for helping me from time to time.

I am thankful to Mr.Nasseer, Seminar In charge in the department and also the librarians of Moulana Azad, Ratan Tata, J.N.U and British Council, and Skyline Management Institute for providing me all necessary secondary data.

Last but not the least, I express my thanks and appreciation to my family for their understanding, motivation and patience. I am greatly indebted to my parents, for giving me life in the first place, for educating me with aspects from both arts and sciences, for unconditional support and encouragement to pursue my interests, even when the interests went beyond boundaries of language, field and geography. I am grateful to my sister Farzaneh, for providing me moral support at every stage of my life. She was always patient and sympathetic in listening to my complaints and frustrations, and for believing in me. My brothers refusing to answer my e-mails unless I have something interesting to say, for reminding me that my research should always be useful and serve good purposes for all humankind.
