**Vitamin A: Biosynthesis, intestinal absorption** 5

Hepatic storage, transport and its uptake by extrahepatic tissues 5

Functions and mode of action of vitamin A 11

Vitamin A and biomembranes 13

Vitamin A lipid metabolism 14

Dietary protein and vitamin A 16

Vitamin A and reproduction 20

Vitamin A and differentiation and growth 21

Biochemical development 23

Biochemical development of liver 27

Hepatic lipogenesis during development 29

Hepatic gluconeogenesis during development 31

Development of lung 32

Lung lipid and development 34

Pulmonary surfactant system, its biochemistry and functions 36

Development of heart 38

Biochemistry of developing heart 39
Biochemical development of brain ........ 42
Microtubules and brain development ........ 44
Myelin ........ 45
Vitamin A and biochemical development ........ 46

OBJECT AND SCOPE OF THE PRESENT INVESTIGATION 50

CHAPTER I: Storage, Mobilization and uptake of vitamin A in rats in relation to dietary protein .... 53—77
Introduction ........ 53
Materials and methods ........ 55
Results and Discussion ........ 65

CHAPTER II: Placental transport and distribution of vitamin A in developing fetus/offspring of rats in relation to maternal vitamin A status 78—116
Introduction ........ 78
Materials and Methods ........ 81
Results and Discussion ........ 90

CHAPTER III: DNA, RNA and protein metabolism in developing organs of rat in relation to maternal Vitamin A status 117—160
Introduction ........ 117
Materials and Methods ........ 120
Results and Discussion ........ 129
## CHAPTER IV: Lipogenesis and Cholesterolosis

in developing organs of rat in relation to
