ACKNOWLEDGEMENT

First and above all, I thank the Lord Almighty to whom I owe my very existence for providing me this opportunity and granting me the capability to proceed successfully. I am grateful for His provision of joys, challenges and grace for growth that have been bestowed upon me during this research work, and indeed, throughout my life: "I can do everything through Him (God) who give me strength." (Philippians 4: 13).

It is with immense gratitude and profound thanks that I acknowledge the support and help of my guide Prof. Dr. C. Sanjeevraja, Chairperson and Head, School of physics, Alagappa University, Karaikudi in completing this thesis. His excellent guidance, priceless advices, insightful discussion, constant encouragement, profuse assistance, skillful suggestions and continuous support throughout the experimental and thesis works are the bases for the success of this research. With deepest gratitude I acknowledge my guide for picking me up as one of his research students and providing me an excellent experimental atmosphere for completing the research work in time. In fact, the encouragement, support and freedom rendered by my guide provided me a lot of opportunity to build my confidence in accomplishing the experimental work successfully.

I am highly indebted to Dr. C. Gopalakrishnan, Head, Nanoscale Physicist, Nanotechnology Research Center, SRM University, SRM Nagar, Kattangulathur for providing the AFM and FESEM facilities to complete the morphological studies effectively.

My sincere thanks go to Thiru. N. Sivasubramanian, President, Thiru. G. Karikolraj, Secretary & Correspondent, Thiru. D. Nallathambi, Treasurer, Dr. S. Gousalya, Principal and all management members of N. M. S. Sermathai Vasan College, Madurai for providing me the support and encouragement to perform my research work comfortably. Especially I am highly indebted to my Principal for her understanding, encouragement, personal attention and trust in me which have provided great comfort amidst difficult circumstances.

With deep sense of gratitude, I thank Prof. Dr. A. Kannan and Dr. S. Swamynathan, Associate professor, Department of Information Science & Technology, College of Engineering, Anna University, Chennai for their kind and timely help in collecting materials for literature survey.

I would like to acknowledge my research colleagues Dr. K. Jeyadeepan, Dr. L. C. Nehru and Miss. S. Nagarani for their technical support in the laboratory and constructive criticism over my present research work. I am also grateful to my fellow research colleagues Dr. V. Senthil Kumar, Dr. B. Anuradha, Mr. D. Prakash and Mrs. A. Ayesha Mariam.
I am really thankful to my friend Mrs. P. Geetha, Assistant Professor, N.M.S. Sermathai Vasan College who willingly carried out the most tedious work of correcting the language of this thesis and of proof-reading.

I wish to thank my best friends Mrs. Pushpa Dhamayanthi, Mrs. S. Latha, Assistant Professor, KLN College of Information Technology, Sivagangai and Mrs. S. Hemasundari, Assistant Manager, Tamil Nadu Civil Supply Corporation for their love, care and moral support especially at times when things were going tough. My special appreciation goes to Mrs. P. Meena, Physics Lab Assistant, N.M.S.Sermathai Vasan College, Madurai for her friendship, support and creating a pleasant atmosphere in hard moments.

I would like to pay high regards to my mama Mr. C. Peter Gnanendiran and akka Mrs. P. Saruballa Jeyakhantham for taking efforts to start the research work and also for their constant moral support and encouragement.

Words are short to express my deep sense of gratitude towards my spiritual father and mother Rev. R. Edward Sam (Canada Thatha) and Mrs. Suganthy Edward Sam (Canada Paati) who drew me close to the Lord. They always give me words of encouragement and cheer me up by shedding light on secular issues from a spiritual angle. Paati & Thatha, I treasure your emails as “Ruth’s Attic”.

I want to express my gratitude and deepest appreciation to my Athan Mr.D.Arulanandam and Akka Mrs. Minnie Arulanandam for their endless love, prayers, continual support and encouragement throughout these years. Thank you Akka and Athan for the undying love and support you have provided to me and for believing in me that I can finish my manuscript in time. They always believed that I am good at my craft and that I can finish this thesis, by God’s grace. Words fail me to express my appreciation to my beloved parents Rev. E. S. Devasagayam and Mrs. Meera Devasagayam for their unconditional support, both financially and emotionally throughout my life. The love, patience and understanding shown by them during the research period are immeasurable. I owe everything to them. Amma and Appa, a million thanks to you. I love you both very much.

I wish to dedicate this dissertation to my Heavenly Father (God), Guide and Parents.
