ACKNOWLEDGEMENT

Endless thanks to Lord Almighty for all the blessings showered onto me that enabled me to perform and compile research work. During the period of my research, as in the rest of my life, I have been blessed by Almighty with some extraordinary people who have spun a web of support around me.

First of all, I owe my heartfelt sincere gratitude to my supervising guide, Dr. Jasbir Singh, who gave me an opportunity to pursue research which leads to a Ph.D., which was once a dream of mine. I am grateful to you Sir for your constant inspiration, effective discussions, encouragement and help given to me during this study. His support was not only limited to my scientific issues his philosophical advice have influenced me a lot in day today life. His creativity, scientific aptitude and perseverance have made him a constant oasis of knowledge, which inspired and enriched me as a researcher and I am indebted to him more than he knows. I am privileged to get him as my mentor for this study.

I have no words to express my deep sense of gratitude to Dr. Suman Dhanda, for her guidance and support. Her constant guidance, cooperation, motivation and support have always kept me going ahead. Her constructive criticism has certainly helped me to identify the lacunae and to overcome them. She has always been a source of encouragement and inspiration for me. I owe a lot of gratitude to her for always being there for me and I feel privileged to be associated with a person like her during my life.

I am extremely thankful to Dr. N.N. Dogra, Chairman, Department of Biochemistry, Kurukshetra University, Kurukshetra for providing the necessary facilities in the department for the completion of research work.

I wish to thank Dr. Hari Singh, Professor Emeritus, Department of Biochemistry, Kurukshetra University, Kurukshetra for providing some synthetic substrates, chemicals and peptides. Thanks are also due to Dr. Rajat Sandhir, Professor, Department of Biochemistry, Punjab University for their help by extending the research facilities. I also wish to thank CDFD, Hyderabad for MALDI analysis of samples.
My heartfelt thanks to Dr. Pooja, Dr. Drukshakshi, Dr. Himanshu, Mrs. Vandana Moudgil, Mrs. Dimpi Gandhi, Ms. Preeti Chanalia, Mr. Devender Redhu, Mr. Surender Sehrawat and Mr. Kapil Punia for always standing by my side and sharing a great relationship as compassionate friends. I will always cherish the warmth shown by them.

My special regards to my teachers from childhood because of whose teaching at different stages of education has made it possible for me to see this day. Because of their kindness I was able to reach a stage where I could write this thesis.

I feel a deep sense of gratitude for my parents, who formed part of my vision and taught me good things that really matter in life. Their unconditional love and unconditional support has always been my strength. Their patience and sacrifice will remain my inspiration throughout my life. I am also very much grateful to all my family members for their constant inspiration and encouragement.

I owe my deepest gratitude towards my better half for her eternal support and understanding of my goals and aspirations. Her infallible love and support has always been my strength. Her patience and sacrifice will remain my inspiration throughout my life. Without her help, I would not have been able to complete much of what I have done and become who I am. It would be ungrateful on my part if I do not thank my little angel ‘Anushka’. Little efforts of my beloved baby make my life brightened and her innocent smile and talks always make me laugh. I would like to express my thanks for being such a sweet doll for cheering me up.

My heartfelt regard also goes to my father in law, mother in law and brothers in law for their love, moral support and encouragement.

I would like to thank administrative and technical staff members of the department and University who helped me in their respective roles.

As always it is impossible to mention everybody who had an impact to this work however there are those whose spiritual support is even more important.

(Tejinder Pal)
