ACKNOWLEDGEMENTS

First and foremost I would like to express my deep sense of gratitude to my supervisor, Dr. Y.S. Chauhan, Reader in Botany, whose encouragement and valuable guidance made it possible for me to complete this study.

I am thankful to Professor R.R. Mishra, Head of the Department of Botany, School of Life Sciences, for his keen interest, encouragement and laboratory facilities. Thanks are also due to Professor P.S. Ramakrishnan, former Head of the Department of Botany, for facilities.

I am deeply indebted to my friends, Mr. Mimal Joshee, Mr. B.K. Tiwari, Mr. S. Ravindran, Mr. K.G. Saxena, Mr. A.K. Das and Mr. K.M. Kuruvilla, who were always willing to help at the hour of need.

I also thank the Head of the Department of Geography, Dr. R.K. Rai for permission to use the microsystem, Mr. N.P. Goel of the Department of Geography and Mrs. Gitasree Das Barbhuiya of the Department of Botany for help and advice given during the processing and statistical analysis of the experimental findings. I am also grateful to Mr. B.K. Das for photography and to Mr. M.H. Barbhuiya and Mr. Salil Choudhuri for the drawings.
The assistance of Mr. Premkumar Gurung, Mr. T. Syiemlieh, Mr. E. Syiemlieh, Mr. R. Shabong and others in field plantings and management of experimental plants is gratefully acknowledged.

I am grateful to the U.G.C. for granting a Junior Research Fellowship during the tenure of this study.

I would be failing in my duty if I do not express my sincere gratitude to my mother who was a constant source of encouragement and inspiration.

Date: 25th November, 1981.
Place: Shillong.
