CHAPTER 3
STUDIES ON YTTRIUM AND LANTHANIDE COMPLEXES OF
4-N-(2'-FURFURYLIDENE)AMINOANTIPYRINE

EXPERIMENTAL
3.1 Preparation of Complexes 52
3.1.1 Yttrium and lanthanide perchlorate complexes of FAA 52
3.1.2 Yttrium and lanthanide nitrate complexes of FAA 52
3.1.3 Yttrium and lanthanide iodide complexes of FAA 53
3.2 Results and Discussion 53
3.2.1 Electrolytic conductance 54
3.2.2 Magnetic susceptibility 54
3.2.3 Infrared spectra 55
3.2.4 Proton NMR spectra 59
3.2.5 Electronic spectra 59
3.3 Summary and Conclusion 61

CHAPTER 4
STUDIES ON YTTRIUM AND LANTHANIDE COMPLEXES OF
4-N-(2'-THIENYLIDENE)AMINOANTIPYRINE

EXPERIMENTAL
4.1 Preparation of Complexes 66
4.2 Results and Discussion 66
4.2.1 Electrolytic conductance 67
4.2.2 Magnetic susceptibility 67
4.2.3 Infrared spectra 67
4.2.4 Proton NMR spectra 69
4.2.5 Electronic spectra 70
4.3 Summary and Conclusion 70

CHAPTER 5
STUDIES ON YTTRIUM AND LANTHANIDE COMPLEXES OF
4-N-(5'-NITRO-2'-THIENYLIDENE)AMINOANTIPYRINE

EXPERIMENTAL
5.1 Preparation of Complexes 73
5.2 Results and Discussion 74
5.2.1 Molar conductance 74
5.2.2 Magnetic susceptibility 75
5.2.3 Infrared spectra 75
5.2.4 Proton NMR spectra 77
5.2.5 Electronic spectra 77
5.3 Summary and Conclusion 78
CHAPTER 6 THERMAL STUDIES OF YTTRIUM AND LANTHANIDE COMPLEXES OF SOME SCHIFF BASES

6.1 Introduction 80
6.2 Experimental 88
6.2.1 Preparation of the ligand and complexes 88
6.2.2 Instrumentation 88
6.3 Results and Discussion 89
6.3.1 Phenomenological aspects 89
6.3.2 Kinetic studies 96
6.3.3 Mechanism of the thermal decomposition reaction 101
6.3.4 Summary and Conclusion 102

CHAPTER 7 SUMMARY
