ACKNOWLEDGEMENT

I owe my intellectual debts to my supervisor Dr. Khowaja Jamal, who offered the unflinching encouragement and support at outset of the work and thereafter. The guidance and encouragement have been very constructive and required extreme hard work most of the times, perhaps all the times. He generously and graciously dispensed with innovative ideas in the form of suggestions and advice given at several steps of experiments, writing and subsequent evaluation.

I express my heartfelt gratitude to my Co-supervisor Dr. Akhtar Ali Khan, who helped me to complete this work and examined it critically. I take this opportunity to thank Chairman, Department of Zoology, Prof. Iqbal Parvez for his timely help and sympathy.
