**LIST OF TABLES**

Table 1 : Average biometric measurement of *H. ater* from different roosts of Tirunelveli (Excluding pregnant / lactating female)

Table 2 : Survey of roosts of *H. ater* in and around Tirunelveli

Table 3 : Composition of *H. ater* colony during the study period

Table 4 : Recapture predictions of tagged *H. ater* in the study colony

Table 5 : Birth rate \( \lambda_t \) and death rate \( \mu_t \) of *H. ater* in the study colony from November 2001 to April 2003

Table 6 : Observed birth and death rate of new born in the study *H. ater* colony from November 2001 – April 2004

Table 7 : GC-MS analysis indicating odoriferous compound exhibits of male *H. ater* during breeding and non-breeding seasons

Table 8 : GC-MS analysis indicating odoriferous compound exhibits of female *H. ater* during breeding and non-breeding seasons

Table 9 : GC-MS analysis indicating odoriferous compounds present in different regions of pup of *H. ater*

Table 10 : Mother-pup association of *H. ater* during their lactating period

Table 11 : A comparison of percentage frequency of major insect orders consumed by different colonies of *H. ater* located in different habitats
