ACKNOWLEDGEMENT

At the onset, I express my sincere gratitude to the authorities of the University of Burdwan, for the favour they bestowed on me by providing the registration and allowing me to carry out this research work in the area of my interest as a PhD thesis work. Without their favour this thesis work would never have come to light.

I owe enormously to Professor Dev Malya Dutta, my supervisor, who has been a guardian angel throughout my tenure of this research activity. He has provided me with his relentless support, advice and encouragement from time to time in spite of his busy schedule and other important engagements. In fact, without his incessant support, constant inspiration, and invaluable scholastic and practical inputs, this research work would never have got the shape and dimension it has got today. I thank him from the core of my heart for every little bit he has done for me and this research work.

I feel immensely indebted to the Department of Business Administration, the University of Burdwan, as a whole and to my teachers in particular: Prof. Dilip Roy, Prof. S.K. Sengupta, Dr. Tanmoy Dasgupta, Dr. B.B Parida, Dr. P.K Mallik, Dr. P.K Tripathi, Dr. M.A Sofique, Dr. Partha Sarkar, Dr. Anindya Dutta and Dr. Kaushik Mandal, whose constant motivation and scholarly support have paved the direction of composition of this thesis work.

I am extremely grateful to my colleagues and superiors at Dr. B.C Roy Engineering College and in particular Shri D. Mitra, the President of the College, for their constant love, co-operation and enthusiastic motivation which has acted as a major driving force for this research activity from time to time.

Further, I am extremely indebted to all my respondents, the officials of the various Financing Institutions operating in the Burdwan –Asansol and Dhanbad – Bokaro regions, and my ex-colleagues of the ICICI Bank Ltd., and Magma Leasing Ltd., namely Mr. Girish Patnaik, Mr. Debnil Chakraborty, Mr. Mahendra Mishra, Mr. Partha Dutta, Mr. Sukanta Seal, Mr. Tara Shankar Haldar, Mr. Probaldwip Bakshi and so on, whose priceless practical inputs in the subject have helped me to conceptualize and execute this research activity.

It would be very unfair on my part if I don’t acknowledge the contribution of my family members, especially my father Mr. S.P Mookherjee, my mother Mrs. Kamala Mookherjee, my brother Arunangshu Mookherjee and family friend Ganesh Chakraborty who has served as the source of my sustenance during the last six years of my PhD research work. To be honest without their constant support and encouragement, the completion of this thesis work would have been next to impossible.

Lastly, I would like to appreciate the efforts of my students, who have helped me a lot with the survey activities, Mr. Naba Majhi and Mr. Narendra for the DTP assistance and the British Council and USIS Libraries for the literary inputs which has helped me to holistically formulate the Thesis.

I thank them all.
