ACKNOWLEDGEMENT

I avail myself of this opportunity of expressing my heartiest regard, deep sense of gratitude, appreciation and indebtedness to my revered and learned Supervisor, Prof. Dr. Sk. Abdus Samad, Department of Mathematics, University of Burdwan, Burdwan, West Bengal, India. His constant encouragement, ardent guidance, effective supervision, valuable suggestions, cordial help and pain-staking efforts throughout the entire period of study has enabled me to complete this investigation in its present form. Formal words of thanks can in no way express the gratefulness I owe to him.

I express my sincere and heartfelt thanks to Dr. N. K. Datta, Principal of Nawahata College, Nawahata, 24-Pgs.(N), West Bengal, for encouragement to carry out the programmes of research.

I also wish to express my deep sense of gratitude to Saraj Kumar Majumder, M. A., B. Ed., former Headmaster of Dattapulia Union Academy, Dattapulia, Nadia, West Bengal for his constructive suggestions and inspiration at various stages of the progress of this study.

I am also grateful to Dr. B. C. Ghosh for his generous help, constant inspiration and encouragement during the research period.

I desire to record with deep sense of respect the guidance and blessing given and the sacrifice made by my parents. I shall shrink from my duty, if I forget the help I received from my father K. P. Ghosh, who shouldered the responsibility of maintaining the family and giving me a scope to devote full time to my research work.

In fine I wish to record my sincere appreciation to my wife, Mrs. Rita Ghosh, M. A., B. Ed. for her untiring co-operation and constant inspiration.

My parents and wife pulled the wire of my success. My research could not bear golden fruit without them.

I got inspiration from my friends companions and class-mates. I thank all of them from the core of my heart.
