ACKNOWLEDGEMENT

The author wishes to express her deep sense of gratitude and heartfelt thanks to Dr. L.C. Kagti, M.Sc., Ph.D. (Nottingham), Professor in Botany, Gauhati University, for his kind suggestion of the problem, valuable guidance, continued encouragement and constant interest throughout the tenure of research works. The author also intends to acknowledge her respected guide for his utmost help and wide variety of suggestions in completing the research works.

The author wishes to express her sincere thanks and gratitude to Dr. P.P. Wamanon, Professor in Agri-Botany, Gauhati University, for his valuable help and kind co-operation to bring out the statistical analysis of the entire experimental works.

The author wishes to acknowledge the University Grants Commission for granting the research fellowship to carry on the research works.

The author also wishes to express her sincere thanks and gratitude to the teachers of the Department of Botany, Gauhati University and also to the staff-members of the Department of Botany, Cotton College, Gauhati, for their continued inspiration and constant encouragement.

The author intends to express his grateful thanks to Mr. C.K. Kataki, Stenographer, National Productivity Council, Gauhati, for his kind assistance in the final typing of the thesis.

The author wishes to express her grateful thanks to Dr. B. Choudhury and members of her family for their constant encouragement and inspiration for the completion of the research works.

Manju Rani Devi,
Lecturer in Botany,
Cotton College,
Gauhati.
