ACKNOWLEDGEMENT

It is a pleasure to thank my thesis supervisor Dr. H.P. Sarma for his constant help, encouragement and support throughout the course of this work.

I would like to thank Dr. D.C. Goswami, Retired Professor and Head, Department of Environmental Science, Gauhati University for his valuable suggestion and constant inspiration during the period of this research work. I would specially like to thank Dr. K.G. Bhattacharyya, Professor, Department of Chemistry, G.U, for his encouragement and suggestion in carrying out analysis of heavy metals.

I acknowledge the UGC, NERO, Guwahati for granting me Teacher Fellowship during 10th Plan Period to undertake this research work.

I also thankfully acknowledge the help extended by Dr. Bhaben Tati, Lecturer and Dr. D. K. Jha, Reader, Department of Botany, Gauhati University, while carrying out Bacteriological studies. I am specially thankful to Sri Pankaj saikia, North Lakhimpur for his help in computer works during the preparation of thesis.

I am grateful to my husband Mr. Nitya Ranjan Kakati who shared all my problems & difficulties and offered immense help and valuable suggestions during the period of research work.

I would like to express my gratefulness to my parents for giving constant support and encouragement throughout the period of research work.

Date: 11-01-2008

(SABITRI SAIKIA KAKATI)
Sr. Lecturer in Chemistry
Lakhimpur Girls College, North Lakhimpur
