CHAPTER 4 EXPERIMENTAL FINDINGS 37
4.1 Influence of heavy metals on growth and development 37
4.1.1 Influence of lead on growth and development 37
4.1.2 Influence of mercury on growth and development 40
4.1.3 Influence of cadmium on growth and development 45
4.2 Impact of heavy metals on oil content 47
4.2.1 Impact of lead on oil content 47
4.2.2 Impact of mercury on oil content 49
4.2.3 Impact of cadmium on oil content 51
4.3 Impact of heavy metals on oil quality 53
4.3.1 Impact of lead on oil quality 53
4.3.2 Impact of mercury on oil quality 55
4.3.3 Impact of cadmium on oil quality 57
4.4 Modifying effect of seasonal changes on growth and development and oil content due to heavy metals 59
4.4.1 Impact of seasonal changes on growth and oil content in unamended soil 59
4.4.2 Seasonal changes and its impact on lead treatment 60
4.4.3 Seasonal changes and impact on mercury treatment 61
4.4.4 Seasonal changes and its impact on cadmium treatment 62
4.5 Proline accumulation due to heavy metal stress 64
4.5.1 Proline accumulation following to lead 65
4.5.1.1 Accumulation in leaf following short term exposure 65
4.5.1.2 Accumulation in leaf following long term exposure 66
4.5.1.3 Proline accumulation in root due to lead treatment 66
4.5.2 Proline accumulation following exposure to mercury 69
4.5.2.1 Accumulation in leaf following short term exposure 69
4.5.2.2 Accumulation in leaf following long term exposure 70
4.5.2.3 Proline accumulation in root due to mercury treatment 72
4.5.3 Proline accumulation following exposure to cadmium 73
4.5.3.1 Accumulation in leaf following short term exposure 73
4.5.3.2 Proline accumulation in leaf following long term exposure to cadmium 74
4.5.3.3 Proline accumulation in root due to cadmium treatment 75
4.6 Nitrate reductase activity influenced by heavy metals 76
4.6.1 Influence of lead on NR activity 77
4.6.1.1 Short term exposure to leaf 77
4.6.1.2 Long term exposure to leaf 78
4.6.1.3 NR activity in root due to lead 79
4.6.2 Influence of mercury on NR activity 81
4.6.2.1 Short term exposure in leaf 81
4.6.2.2 Long term exposure in leaf 82
4.6.2.3 NR activity in root due to mercury 84
4.6.3.3 NR activity in root due to exposure to cadmium 86
4.7 Accumulation of heavy metals in different parts of lemongrass 88
4.7.1 Accumulation of lead in various parts of lemongrass 88
4.7.2 Accumulation of mercury in various parts of lemongrass 91
4.7.3 Accumulation of cadmium in various parts of lemongrass 94
CHAPTER-5 DISCUSSION

5.1 Influence of heavy metals on growth and development

5.2 Impact of heavy metals on oil content

5.3 Impact of heavy metals on quality of oil of lemongrass

5.4 Modifying effect of seasonal changes on growth and development and oil content due to heavy metals

5.5 Proline accumulation due to heavy metals stress

5.6 Nitrate reductase activity as influenced by heavy metals

5.7 Accumulation of heavy metals in different parts of lemongrass

CHAPTER-6 SUMMARY AND CONCLUSION

CHAPTER-7 BIBLIOGRAPHY
