ACKNOWLEDGEMENTS

Let me start with my deepest gratitude to the Almighty for initiating the thoughts of carrying out this work for the betterment of womenfolk in their later part of their life. I also thank Him for providing me the patience and perseverance for handling this work and finally establishing the findings which, I hope, will benefit the society.

I express my deepest indebtedness to my guide Dr G Saraswathi, Professor (Retd.), Department of Studies in Food Science and Nutrition, University of Mysore. I am really blessed to have her not only as my technical guide but also as my mentor throughout the work. She has been constantly giving her guidance, and motivation throughout the entire period of the thesis work especially during the difficult time. But for her patient review and guidance of the work, this thesis wouldn’t have been taken this shape. She showed me the way on how a perfect guide should be; not just be guiding in the scientific work but in all ways during the doctoral period.

I take great pleasure to thank Dr. Jamuna Prakash, Chairperson, Dr Khyruninisa Begum, BOS Chair Person, Dr Asna Urooj, Member IHEC and other staff members of the Dept. of Studies in Food Science and Nutrition, University of Mysore for their constant encouragement and inspiration. I also express my sincere gratitude to the University of Mysore for permitting me to pursue my Doctoral work.

I am short of words to express how deeply I am indebted to my Sr. Albina, former Principal Mount Carmel College, for all the support and encouragement showered on me to pursue my Ph.D programme. She gave me an opportunity to prove myself worthy. I express my deepest gratitude to my present Sr. Juanita, principal, Mount Carmel College (Autonomous), Bangalore for all the support given to complete my doctoral work. Though she is acquainted to me officially for only few months her support towards the end of my thesis work is highly appreciable.

A special word of thanks is due to Prof. Usha A. Kumar, Dean, Department of Home Science, Mount Carmel College for providing constant encouragement to me to fulfil my desire. I am also grateful to Dr. Shantha Maria, HOD, Department of Home Science, for always believing and uplifting me in my endeavour. I thank all my colleagues in the department who were of great support in completing my doctoral work.
I thank University Grants Commission and the Department of Collegiate education for providing me an opportunity to avail the fellowship (UGC-FDP) to pursue and finish my doctoral work.

My sincere thanks are due to The Directorate ER & IPR, DRDO, Ministry of Defence, Govt. of India for supporting this work. I also thank all the Directors of the DRDO lab for permitting me as well supporting me in all possible ways to carry out the study on their womenfolk.

I am at loss of words in thanking all the participants in the prevalence study as well as intervention programme. A special thanks to the participants who are employees of DRDO labs who could participate in the intervention programme in spite of their work load.

My sincere thanks to M/s. Himalaya Drug Company for conducting free BMD camps in the east zone to recruit the subjects for the study and to M/s. Pristine organics Pvt Ltd for producing and packing the diet supplement sachets for the study. She also thank M/S- Elbit diagnostics for their timely service in analytical work. I express my sincere gratitude to Ms. Amritha, Ms. Asima, Ms. Manjshree, Mr. Rangaji (Yoga instructor), Ms. Mangala, and Ms. Nishita for being the part of the team contributing in one way or other to the completion of the entire programme. A special thanks to Ms. Manjushree who was involved during the whole of intervention programme as well as during the data analysis and totally supported me in carrying out the same.

My sincere thanks are due to my Grandmother and my parents who supported and encouraged me to complete the work. A special thanks to my brother Dr. A Balaji Thiruvadi, orthopaedic surgeon who supported me with technical materials in osteoporosis and patiently answered all my medical queries related to the same.

Last but not the least I thank my husband Dr. A. Vengadarajan and my children A.V. Srivijay and A.V. Rishi Rengnathan for their patience as well as their support during my entire period of this work.

A special word of thanks to Mrs. Susheelamma and Ms. Sarojini who showered their love and affection on me and made my stay a memorable moment in Mysore. I am greatly indebted to them.

I also wish to extend my sincere gratitude to Dr. Mariamma Philip, statistician for her extensive help with the statistical analysis of the Data.
