# LIST OF TABLES

Table 1. Risk Factors for Coronary Heart Disease 11

Table 2. Characteristics of oxidized LDL 13

Table 3.1 Fatty acid composition (as % of fatty acid) of cuttlefish liver oil 73

Table 3.2 Gain in body weight & organ weights. 74

Table 3.3 Concentration of serum total cholesterol, triacyl glycerol, HDL-C, LDL-C and phospholipids. 76

Table 3.4 Atherogenic ratio. 76

Table 3.5 Total Cholesterol in tissues. 77

Table 3.6 Triglyceride (TG) levels in tissues 77

Table 3.7 Phospholipid (PL) levels in tissues 79

Table 3.8 Faecal excretion of neutral sterols and bile acids. 79

Table 3.9a Activity of malic enzyme. 81

Table 3.9b Activity of Glucose-6- phosphate dehydrogenase. 81

Table 3.9c Activity of HMG CoA reductase in tissues. 82

Table 3.10a Concentration of Catalase 82

Table 3.10b Concentration of Glutathione Reductase 84

Table 3.10c Concentration of Glutathione Peroxidase 84

Table 3.10d Concentration of Superoxide dismutase (SOD) 85

Table 3.11 Concentration of ascorbic acid and glutathione in tissues 85

Table 3.12 Concentration of malondialdehyde and conjugated diene in tissues. 87

Table 4.1 Activities of LDH, CPK, GPT, GOT and CK-MB in serum 99
Table 5.1 Effect of cuttlefish liver oil on carrageenan induced acute inflammation and formalin-induced chronic inflammation in rats.

Table 6.1 Effect of feeding cuttlefish liver oil on Splenic T-lymphocyte mitogen response and bone marrow cell proliferation in rats.

Table 6.2 Effect of feeding cuttlefish liver oil on plaque forming cells and circulating antibody titre.
