ACKNOWLEDGEMENT

My silent thanks giving ever and ever to the Kindly Light’s Infinite Grace and Mercy that have continued to light up every footstep till this research journey’s end. I humbly pray with folded hands and sincere heart for his grace to continue forever.

It is with great pleasure I express my grateful gratitude and place on record my appreciations to all those persons who helped me in one or more ways during the process of completing this research.

It is with immense pleasure that I express my heartfelt and sincere gratitude to my Supervisor Respected Prof. G.S Tyagi, for his unfailing encouragement and prompt support always given to me. Indeed it is his innate magnanimity that helped me out of difficulties of sorts during the course of this work. These will always remain fresh in my memories and remind me of his dedicated personality.

With hearts brimming with joy and minds struggling for words it is not easy to thank someone who is the essence of my inspiration. I am most grateful to Dr. K.S. Daya, for her endearing magnanimity care and invaluable guidance. She is a reservoir of knowledge that led me to delve deep into my subject of research. It is her painstaking guidance and deep involvement in this work that made this thesis to see the light of the day. Indeed, she is a memorable landmark in my academic carrier. Needless to say, it was a delight for me to work with and learn from her.

I shall ever cherish the fond memories of Prof. Satish Kumar, for teaching me the first lesson in my subject of research. He was always there to listen my problems and was always a source of encouragement, motivation, and patience.
I tender my humble thanks to Prof. V. G Das, Director of the institute and Prof. L.D Khimani, Dean of the Faculty for providing me facilities to carry out this work.

I owe special word to thanks to Mr. Yashveer Sandhu for his support and help in the instrumentation throughout my thesis work.

I am very grateful to Prof. Sahab Dass Kaura, to giving me the opportunity for working in his lab.

My deep debt of gratitude is due to my dear most wardens Mani aunty, Bal aunty and Bhalla aunty, for accommodating me with all affection and care as family member for over nine years.

I gratefully acknowledge the affectionate care and help given to me by my friend Ashima Gupta, at every step of this research work. I am also thankful to my colleagues Ritika, V.Guru Charan, Arti Verma, Tulika, and Rajveer for helping me and giving me encouragement at the sagging moments of despondency. I also want to give my special thanks to Prem sir and Babita di to giving me valuable suggestion time to time.

I also enjoyed the great affection and constant encouragement from my grandmother. She is my unfailing source of inspiration.

I extend my sincere thanks to my all family members for their great help and moral support during the entire course of study.

Lastly, I will ever remain indebted to my beloved parents for their innumerable sacrifices and infinite blessings showered on me throughout. They are my perennial fountains of inspiration in all my endeavors.
