LIST OF TABLES

Table No. | Title                                                                 | Page No. |
----------|-----------------------------------------------------------------------|----------|
3.1       | Name of tool, variables measured, number of items and time limit      | 83       |
3.2       | Distribution of Items of Teaching competence in the Categories of Teaching Skills | 97       |
3.3       | Inter-correlations between ratings given by supervisor and investigator of two year B.Ed. students | 99       |
3.4       | Inter-correlations between the ratings of the supervisor and investigator of one years B.Ed. students | 99       |
3.5       | The number of items and percentage of items of six dimensions of Teacher Attitude Inventory | 101      |
3.6       | Value of critical ratio of items in Teacher Attitude Inventory        | 104      |
3.7       | Number of positive and negative items in Teacher Attitude Inventory   | 105      |
4.1       | Mean writing instructional objectives scores of male and female student’s studying one year and two year B.Ed. course | 115      |
4.2       | Results of Two-way ANOVA for mean writing instructional objectives scores of male and female students studying one year and two year B.Ed. course | 115      |
4.3       | Mean Organizing the content scores of male and female students Studying one year and two year B.Ed. course | 117      |
4.4       | Results of Two-way ANOVA for mean Organizing the content scores of male and female students Studying one year and two year BEd course | 117      |
4.5 Mean writing evaluation scores of male and female students Studying one year and two year B.Ed. course 119

4.6 Results of Two-way ANOVA for mean Writing evaluation scores of male and female students Studying one year and two year B.Ed. course 119

4.7 Mean Skill of introduction scores of male and female students Studying one year and two year B.Ed. course 120

4.8 Results of Two-way ANOVA for mean Skill of introduction scores of male and female students Studying one year and two year B.Ed. course 121

4.9 Mean Skill of providing learning activities scores of male and female students Studying one year and two year B.Ed. course 122

4.10 Results of Two-way ANOVA for mean Skill of providing learning activities scores of male and female students Studying one year and two year B.Ed. course 123

4.11 Mean Content competence scores of male and female students Studying one year and two year B.Ed. course 124

4.12 Results of Two-way ANOVA for mean Content competence scores of male and female students Studying one year and two year B.Ed. course 125

4.13 Mean Skill of stimulus variation and explaining scores of male and female students Studying one year and two year B.Ed. course 126

4.14 Results of Two-way ANOVA for mean Skill of stimulus variation and explaining scores of male and female students Studying one year and two year B.Ed. course 127

4.15 Mean Skill of evaluation scores of male and female students Studying one year and two year B.Ed. course 128
4.16 Results of Two-way ANOVA for mean Skill of evaluation scores of male and female students Studying one year and two year B.Ed. course 129

4.17 Mean Classroom management scores of male and female students Studying one year and two year B.Ed. course 130

4.18 Results of Two-way ANOVA for mean Classroom management scores of male and female students Studying one year and two year B.Ed. course 131

4.19 Mean teacher characteristics scores of male and female students Studying one year and two year B.Ed. course 132

4.20 Results of Two-way ANOVA for mean teacher characteristics scores of male and female students Studying one year and two year B.Ed. course 133

4.21 Mean Overall teaching competence scores of male and female students Studying one year and two year B.Ed. course 134

4.22 Results of Two-way ANOVA for mean Overall teaching competence score of male and female students Studying one year and two year B.Ed. course 135

4.23 Mean Writing instructional objectives scores of students with High and Low attitude studying in one and two year B.Ed. course 138

4.24 Results of Two-way ANOVA for mean Writing instructional objectives scores of students with High and Low attitude studying in one and two year B.Ed. course 138

4.25 Mean Organizing the content scores of students with High and Low attitude studying in one and two year B.Ed. course 140

4.26 Results of Two-way ANOVA for mean Organizing the content scores of students with High and Low attitude studying in one and two year B.Ed. course 140
4.27 Mean Writing evaluation scores of students with High and Low attitude studying in one and two year B.Ed. course

4.28 Results of Two-way ANOVA for mean Writing evaluation scores of students with High and Low attitude studying in one and two year B.Ed. course

4.29 Mean Skill of introduction scores of students with High and Low attitude studying in one and two year B.Ed. course

4.30 Results of Two-way ANOVA for skill of introduction (mean Skill of introduction) scores of students with High and Low attitude studying in one and two year B.Ed. course

4.31 Mean Skill of providing learning activities scores of students with High and Low attitude studying in one and two year B.Ed. course

4.32 Results of Two-way ANOVA for mean Skill of providing learning activities scores of students with High and Low attitude studying in one and two year B.Ed. course

4.33 Mean content competence (Presenting content competence) scores of students with High and Low attitude studying in one and two year B.Ed. course

4.34 Results of Two-way ANOVA for mean content competence (Presenting content competence) scores of students with High and Low attitude studying in one and two year B.Ed. course

4.35 Mean Skill of stimulus variation and explaining scores of students with High and Low attitude studying in one and two year B.Ed. course

4.36 Results of Two-way ANOVA for mean Skill of stimulus variation and explaining scores of students with High and Low attitude studying in one and two year B.Ed. course

4.37 Mean skill of evaluation (questioning skill) scores of students with High and Low attitude studying in one and two year B.Ed. course
4.38 Results of Two-way ANOVA for mean skill of evaluation (questioning skill) scores of students with High and Low attitude studying in one and two year B.Ed. course

4.39 Mean Classroom management scores of students with High and Low attitude studying in one and two year B.Ed. course

4.40 Results of Two-way ANOVA for mean Classroom management scores of students with High and Low attitude studying in one and two year B.Ed. course

4.41 Mean teacher characteristics (Teachers characteristics) scores of students with High and Low attitude studying in one and two year B.Ed. course

4.42 Results of Two-way ANOVA for mean teacher characteristics (Teachers characteristics) scores of students with High and Low attitude studying in one and two year B.Ed. course

4.43 Mean Overall teaching competence scores of students with High and Low attitude studying in one and two year B.Ed. course

4.44 Results of Two-way ANOVA for mean Overall teaching competence scores of students with High and Low attitude studying in one and two year B.Ed. course

4.45 Mean Writing instructional objectives scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course

4.46 Results of Two-way ANOVA for mean Writing instructional objectives scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course

4.47 Mean Organizing the content scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course

4.48 Results of Two-way ANOVA for mean Organizing the content scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course
4.49 Mean Writing evaluation scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course 164

4.50 Results of Two-way ANOVA for mean Writing evaluation scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course 165

4.51 Mean Skill of introduction scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course 166

4.52 Results of Two-way ANOVA for mean Skill of introduction scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course 166

4.53 Mean Skill of providing learning activities scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course 168

4.54 Results of Two-way ANOVA for mean Skill of providing learning activities scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course 168

4.55 Mean content competence (presenting content competence) scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course 169

4.56 Results of Two-way ANOVA for mean content competence (presenting content competence) scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course 169

4.57 Mean Skill of stimulus variation and explaining scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course 171

4.58 Results of Two-way ANOVA for mean Skill of stimulus variation and explaining scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course 171
4.59 Mean skill of evaluation (Questioning skill) scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course

4.60 Results of Two-way ANOVA for mean skill of evaluation (Questioning skill) scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course

4.61 Mean Classroom management scores of Low and High students subject mastery studying one year and two year B.Ed. course

4.62 Results of Two-way ANOVA for mean Classroom management scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course

4.63 Mean teacher characteristics (Teachers characteristics) scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course

4.64 Results of Two-way ANOVA for mean teacher characteristics (Teachers characteristics) scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course

4.65 Mean Overall teaching competence scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course

4.66 Results of Two-way ANOVA for mean Overall teaching competence scores of students with High and Low levels of subject mastery studying in one and two year B.Ed. course

4.67 Mean Writing instructional objectives scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.68 Results of Two-way ANOVA for Mean Writing instructional objectives scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology
4.69 Mean Organizing the content scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.70 Results of Two-way ANOVA for mean Organizing the content scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.71 Mean Writing evaluation scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.72 Results of Two-way ANOVA for mean Writing evaluation scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.73 Mean Skill of introduction scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.74 Results of Two-way ANOVA for mean Skill of introduction scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.75 Mean Skill of providing learning activities scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.76 Results of Two-way ANOVA for mean Skill of providing learning activities scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.77 Mean content competence (presenting content competence) scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.78 Results of Two-way ANOVA for mean content competence (presenting content competence) scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology
4.79 Mean Skill of stimulus variation and explaining scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.80 Results of Two-way ANOVA for mean Skill of stimulus variation and explaining scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.81 Mean skill of evaluation (questioning skills) scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.82 Results of Two-way ANOVA for mean skill of evaluation (questioning skills) scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.83 Mean Classroom management scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.84 Results of Two-way ANOVA for mean Classroom management scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.85 Mean Teacher characteristics scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.86 Results of Two-way ANOVA for mean Teacher characteristics scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.87 Mean Overall teaching competence scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology

4.88 Results of Two-way ANOVA for mean Overall teaching competence scores of students studying one year and two year B.Ed. course with low and high levels of teaching methodology
| 4.89  | Mean on writing instructional objectives scores of Low and High language proficiency of student’s studying one year and two year B.Ed. course | 204 |
| 4.90  | Results of Two-way ANOVA for mean writing instructional objectives scores of Low and High language proficiency of students studying one year and two year B.Ed. course | 204 |
| 4.91  | Mean organizing the content scores of Low and High language proficiency of students studying one year and two year B.Ed. course | 206 |
| 4.92  | Results of Two-way ANOVA for mean organizing the content scores of Low and High language proficiency of students studying one year and two year B.Ed. course | 206 |
| 4.93  | Mean writing evaluation scores of Low and High language proficiency of students studying one year and two year B.Ed. course | 207 |
| 4.94  | Results of Two-way ANOVA for mean writing evaluation scores of Low and High language proficiency of students studying one year and two year B.Ed. course | 207 |
| 4.95  | Mean Skill of introduction of Low and High language proficiency of students studying one year and two year B.Ed. course | 208 |
| 4.96  | Results of Two-way ANOVA for mean Skill of introduction scores of Low and High language proficiency of students studying one year and two year B.Ed. course | 208 |
| 4.97  | Mean Skill of providing learning activities of Low and High language proficiency of students studying one year and two year B.Ed. course | 209 |
| 4.98  | Results of Two-way ANOVA for mean Skill of providing learning activities scores of Low and High language proficiency of students studying one year and two year B.Ed. course | 209 |
4.99 Mean Presenting content competence scores of Low and High language proficiency of students studying one year and two year B.Ed. course

4.100 Results of Two-way ANOVA for mean Presenting content competence scores of Low and High language proficiency of students studying one year and two year B.Ed. course

4.101 Mean Skill of stimulus variation and explaining scores of Low and High language proficiency of students studying one year and two year B.Ed. course

4.102 Results of Two-way ANOVA for mean Skill of stimulus variation and explaining scores of Low and High language proficiency of students studying one year and two year B.Ed. course

4.103 Mean on questioning skill scores of Low and High language proficiency of students studying one year and two year B.Ed. course

4.104 Results of Two-way ANOVA for mean on questioning skill scores of Low and High language proficiency of students studying one year and two year B.Ed. course

4.105 Mean Classroom management scores of Low and High language proficiency of students studying one year and two year B.Ed. course

4.106 Results of Two-way ANOVA for mean Classroom management scores of Low and High language proficiency of students studying one year and two year B.Ed. course

4.107 Mean Teachers characteristics scores of Low and High language proficiency of students studying one year and two year B.Ed. course

4.108 Results of Two-way ANOVA for mean Teachers characteristics scores of Low and High language proficiency of students studying one year and two year B.Ed. course
