

Acknowledgement

When it comes to any enterprise or research aimed at human resources development, for that matter, it cannot be a one man show. Contribution active, passive or both is a great deal necessary to accomplish the target. Present modicum of research, at hand, undertaken for the welfare of the living world is no exception.

After kneeling before the almighty, who bestowed upon me the strength to accomplish such a laborious task, I take pleasure in acknowledging the contribution in the present research of all and one related to this subject.

I am gratefully thankful to my research guide Dr. P.S. Kulkarni Head, Department of Geology, Maulana Azad College, Aurangabad, par excellence who took every effort to edit and shape this thesis making it presentable for which I am highly indebted to him.

At the outset, I am devotedly obliged to Dr. S. B Varade, Rtd. Joint Director, Water and Land Management Institute (WALMI) Aurangabad for his elderly advice and valuable suggestions.

I reserve my choicest thanks to Hon. Dr. B.M. Karmarkar, a veteran Geologist who knew the Basaltic terrain of Marathwada region as his own palm. His knowledge of Basaltic rocks helped me a lot in understanding their geohydrological properties.

I am much obliged and thankful to the Principal, Dr. Maqdoom Farooqui for according me permission to use laboratory of the Geology Department. Equally I am very much grateful to Mr. M.A. Mannan, Librarian of the college for providing library facility in referring the books.

It gives me pleasure to thank Shri Mannikar, Executive Engineer of Irrigation Department, for providing necessary information about percolation tanks.

I cannot forget Hon. Shri Vijay Anna Borade, the heart and soul of Marathwada Sheti Sahayyak Mandal (MSSM) and Krishi Vidnyan Kendra (KVK), Jalna who created a platform for discussions on the importance of geohydrology in water and soil conservation which helped me to a great deal in my thesis.

I thank from my innermost heart to Prof. A.R.Khan, my teacher who was always available to me for any advice whatsoever I needed.

I fail to find appropriate words to thank Dr. Irfan Shah, and Dr. P. L. Salve, Deputy Director, Groundwater Survey and Development Agency (GSDA) who

have been always cooperative in providing all the assistance and facilities during field work.

I am thankful to Mr. Jayant Patil, Dr. M. A. Sonar, Mr. M. A. Malik, Mr. Vijay Janjal, Mr. Uday Muley, Mr. Sanjay Kadam and Mr. Osman Baig, who took much pains to undertake topographic survey and assisted during the field work.

How can I in the last, forget all the Senior Geologists and of Groundwater Survey and Development Agency (GSDA) and their teams of Jalna, Osmanabad, Beed, Latur, and Aurangabad. They helped me a lot in providing information of percolation tanks which I eventually shortlisted for my research work.

I would fail in my duty, if I do not realize the obligations and constant encouragement by Dr. S. S. Marathe, Dr. M. D. Jahagirdar, Dr. K.M. Mogarkar, Dr. S. N. Patil and Late Dr. D. G. Chande, during the completion of this piece of research.

I cannot forget the ready assistance provided to me by Dr. Mrs. Megha Deshmukh, the Senior Geologist and Mr. Deshpande, Technical Officer of GSDA. Dr. Mrs. Bhavana Umarikar and the team of Deputy Director Office of GSDA was always on toes to help me in present research work. I have great appreciation and words to thank them.

Grasp the voluntary organization working in the watershed is known by the name of Shri Rajinder Nijjar and Yugandhar Mandavkar. I worked with them and learnt many things in the subject. My special thanks are due for them.

Dr. R.B.Muley, Dr. Ashok Tejankar, Dr. Satish Deshpande, Dr. Babar, Dr. V.M. Sevalikar, Dr. Doke and Mr. P. U. Terkar all of them are my Geology family members. Their inspiration and encouragement in this piece of work shall be long remembered.

My long and lingering acquaintance with Mr. Shaikh Rafiq, Lab Assitant and Shri Sushil Gaikwad, Lab attendant drive me to tender my thanks to them for their assistance in many ways.

At last but not the least I thank my wife Mrs. Kirti, in spite of the ordeals of daily domesticities, could manage the household, ignoring my involvements. I really owe a special word of praise for her. My daughter Saylee and Son Sankalp along with my family members also suffered a lot during my busy schedule. I sympathize with them for their forbearance.

Vaishakh P. Palsodkar
