ACKNOWLEDGEMENT

I express my hearty thanks and sincere gratitude to Dr.M.A.Panneerselvam, Chairman (Retd.), Faculty of Electrical Engineering, Anna University, who had suggested me to select the exciting field of partial discharge for my research work and who has also guided me in research work with extreme kindness and patience.

I am fortunate enough to get constructive comments, advice and suggestions from Dr.K.Udayakumar, Professor of High Voltage Engineering, Anna University, during various stages of research. He also provided excellent facility to do the research work in High Voltage Laboratory. I am thankful to him. I am grateful to Dr.S.Usa, Asst. Professor, Division of High Voltage Engineering, for her wholehearted help and suggestions during the course of my research work.

It is with a profound sense of indebtedness, I place on record my heartfelt thanks to Dr.V.Jayashankar, Assistant Professor, Department of Electrical Engineering, IIT Madras, for his valuable help and suggestions in each step of this work especially in difficult situations.

I profusely thank Prof.S.Muthukkaruppan, Principal, Sri Venkateswara College of Engineering, Sripurumbudur, for being the research coordinator for my research programme and also rendering highly motivating advice and monitoring my work. My revered sincere gratitude to Prof.A.Krishnan, Secretary and Sri.V.Thulasidoss, Treasurer.
Sri Venkateswara Educational and Health Trust, for sponsoring me to the Ph.D programme and providing all facility to do the part of work in the college.

I am fortunate to get highly motivating advice, encouragement and valuable suggestions from Dr. S. Thiruvengadam, Head, Department of Electrical and Electronics Engineering, Sri Venkateswara College of Engineering, since the day of his joining this institution. I sincerely thank him.

I sincerely thank Dr. R. S. Nema, Professor of High Voltage Engineering, Indian Institute of Science, Bangalore, for giving valuable comments and suggestions during my research work at various stages. I profusely thank Dr. V. Sankaranarayanan, for his critical comments at various stages of my research work especially during the synopsis presentation.

The help rendered by Ms. D. Varalakshmi, M/s. E. Ganapathy and Rajendran of the Division of the High Voltage Engineering, is remarkable while carrying out experiments in laboratory and I thank them sincerely. I thank Mr. S. Venkatesan and other TRAs for their day to day help in experiments and computation.

I profusely thank Ms. Meera and Mr. Gnanasekar of M/s. Kappa Electricals, Chennai, for providing specimens for my research work and permitting me to do initial experiments at their premises.

I am thankful to Director (Research) and Registrar, Anna University for providing necessary administrative support during the research programme.
I thank one and all whoever have helped me in one way or other, for completing my Ph.D programme.

My thanks are due to my wife Uma, children Karthik and Ranchani for their wholehearted support and encouragement during all these years of my work.

M.Gopalakrishnan
