ACKNOWLEDGEMENT

When I compare the time before 1991 and after it, I could see that U-turn of my educational career is only because of His grace. I never forget His gracness. At the same time, my father has played very important role in building my educational career by infinite patience, tolerance and moral support. I am thankful to Late Prof. D. S. Basan (Gujarat University) for encouraging me to do research.

Many thanks are also due to my guide Prof. S. J. Bhatt for his help offered to me during the period of preparation of this thesis. I had fruitful discussions with Prof. Ajit Iqbal Singh (Delhi University) and Dr. H. V. Dedania (Sardar Patel University) during this period. Dr. A. B. Patel, Dr. D. J. Karia and Dr. H. V. Dedania also helped me while learning word-processor on Computer. The reprints kindly sent by Prof. R. J. Loy (Australian National University, Australia) have been of significant help in learning Fréchet algebras of power series. It's a pleasure to express my sincere thanks to all these people. Thanks are also due to Utpal Dholakia for providing me the computer facility for typing the thesis.

I am very much thankful to the CSIR for financial assistance in the form of JRF [NET] and SRF [NET]. The facility for carrying out this work has been provided by the Department of Mathematics, Sardar Patel University. In fact, I am also grateful to both the institutes for these supports.

At the end, I am grateful to my family members for their continuous encouragement and patience they have shown during this period. I express my deep love to my wife and my daughter Mananki.
