List of Tables

Table 1.1: Some of the commercially available Nanotechnology products
Table 2.1: Composition range of Nanosilver colloid
Table 2.2: Preparation of Nanosilver Colloid
Table 2.3a: Preparation of Nanosilver Colloid
Table 2.4: Preparation of Nanosilver Colloid
Table 2.5: Preparation of Nanosilver Colloid
Table 2.6: Preparation of Nanosilver Colloid – Components and their effect on particle size
Table 2.7: Composition and identification of nanosilver powder
Table 2.8: Chemical analysis results of Nanosilver Colloid.
Table 2.9: Chemical analysis results of Nanosilver Powder.
Table 3.1: Antibacterial analysis of Nanosilver coated carpet against S. aureus and E. Coli
Table 3.2: Antibacterial analysis of HEPA filter
Table 3.3: Antibacterial analysis of Nanosilver room-sprayer
Table 4.1: Composition of Nanosilver ointment
Table 4.2: Antibacterial analysis of Nanosilver ointment against S. aureus and E. Coli
Table 4.3: Antibacterial analysis of Nanosilver PVC cups
Table 4.4: Antibacterial analysis of Nanosilver PUF against S. aureus and E. Coli
