Acknowledgement

It is my prime duty to express my sincere gratitude to my research supervisor, Dr. Kallol K. Ghosh, SOS in Chemistry, Pt. Ravishankar Shukla University. He has not only inspired me to take up this research work but also encouraged me constantly in bringing it to this stage of completion. Submission of this thesis would not have been possible without his keen interest in my research work, along with his learned guidance throughout my research tenure. In spite of his extremely busy schedule, he was always available for constructive and creative discussion followed by his valuable suggestions and criticisms. Words seem to fail to express my indebtedness towards him.

I also take this opportunity to express my deep sense of gratitude to Prof. V.K. Gupta, Head, School of Studies in Chemistry, Pt. Ravishankar Shukla University, former Head Prof. R. K. Mishra and Prof. S.G. Tandon, School of Studies in Chemistry, Pt. Ravishankar Shukla University, Raipur for their inspiration and constant encouragement.

I feel pleasure in expressing my earnest thanks to Dr. G. L. Mundra, Dr. (Mrs.) Rama Pande, Dr. K.S. Patel, Dr. (Mrs.) S.A. Bhoite, Dr. Manas Kanti Deb of School of Studies in Chemistry and Dr. S. C. Naithani, School of Studies in Life Science and Dr. D.P. Kulty, School of Studies in Geology, Pt. Ravishankar Shukla University, Raipur and Dr. S.K. Rajput, Govt. Model Science College, Raipur, for their valuable suggestions and help.

I am grateful to Professor Kalyan K. Banerji, J.N.V. University, Jodhpur, Professor Pradyot Banerji, Indian Association for Cultivation of Science, Calcutta, Professor N. Satyamurthy, I.I.T., Kanpur, Professor Dipak Ranjan Mal, Dr. T.S. Pal and Dr. D. Ray I.I.T., Kharagpur, Professor K. Kishore, I.I.Sc. Bangalore, Professor Joseph F. Bunnell, University of California, U. S. A. Retired Professor Y. K. Gupta University of Rajasthan, Professor Renato Noto, University of Palermo, Italy, Dr. Alessandro Bagno, University of Padova, Italy and Dr. Robin A. Cox, University of Toronto, Canada, for their valuable suggestions regarding this present investigation. I am grateful to Professor Jose M. Leal, Deparrnento de Quimica, University de Burgos, Burgos, Spain for his suggestions and cooperation for protonation studies.

I am greatly Indepeted to University Grants Commission, New Delhi, for the financial support in the form of major project to Dr. Kallol K. Ghosh,[F.12-42/93(SR-I)]. I am also thankful to the authorities of Council of Scientific and Industrial Research, New Delhi, [9/266(53)/97-EMR-I] for awarding me Senior Research Fellowship.

I am unable to find appropriate words to express my heartfelt sentiments for my parents whose blessings and their inspirations were greatly instrumental in accomplishing this work. I am thankful to my younger brother Subhash Singh for his cheers and help.

Without the useful suggestions and encouragement of Dr. K. K. Krishnani, Dr. Sharmistha Ghosh, Dr. Santosh Sar, Ms. Supriya Roy, Ms. Alka Pandey, Mr. Pankaj Tamrakar, Dr. Jeena Harjit and Dr. G. Sunita this work would never been completed. A brief mention can never convey my deep sense of appreciation to these people. I am also thankful to staff member of chemistry department for excellent cooperation.

Thanks are also due to all my friends who have helped me directly or indirectly.

To conclude, I owe my greatest thanks to Mrs. Shuvra Ghosh for her continued encouragement.

Pray to the almighty to help and guide me in my future course of life.

I thank Mr. Sanjay Lanjewar and Abhay Lanjewar (World Laser Graphics, Raipur) for the typing of the manuscript and for the elegant printing work of this text.

Dated: Santosh Singh Thakur
