I thank God the almighty, for all the blessings showered on me.

I avail this opportunity to express my deepest sense of gratitude, to my beloved teacher and guide Dr. S.S Malini, Department of Studies in Zoology, University of Mysore, Mysore for inspiring me to work on this subject, thought provoking suggestions, encouragement, valuable interactions, and guidance throughout my research work, without whom it would have been possible to fulfil the work.

I express my sincere thanks to the present and the former Chairmen of Department of Studies in zoology; Board of studies in Genetics and members of colloquium and doctoral colloquium committee, University of Mysore, core group of Unit of Evolution for his encouragement during my work.

With great pleasure, I record my sincere thanks to Prof. Geetha Vishwanathan, Programme Director for Genetics & Entomology, Honours & Postgraduate programme, Department of Zoology, St. Joseph’s Science College, Bangalore, for her guidance and suggestions that were helpful during this work.

I take this opportunity to owe a deepest debt of gratitude to my revered teachers Department of Studies in Zoology, University of Mysore, Mysore, for their guidance, cooperation, inspiration and valuable suggestions during my work and throughout my Ph.D. study.

I am indebted to my lab mates, Mr. Sreenivasa G, Mr. Vineeth V. S., Mrs. Kavitha P., Ms. Chaithra P T., Mr. Shivaprasad H. S., Ms. Bidisha Rajak and Ms. Namratha S for
their kind cooperation and valuable ideas throughout the course. I am thankful to them for their inspiring excellent guidance during my work.

My special thanks to Dr. C Sharath Kumar, my brother, my friend and my supporter who helped me a lot during my work. It will be always remembered; the help rendered by him and his staff at Mediwave IVF and Fertility Research Hospital.

I thank the University of Mysore for the facilities provided during my work and I extend my thanks to all my friends and well-wishers who have helped me on different occasions during the course.

The study would not have taken place without the help and participation of the Subjects of various Clinics and their Directors. I owe a lot to their generosity and nice gesture.

I am very grateful to my beloved parents for showering their blessings, encouragement, cooperation, and providing an opportunity in quenching my thirst for knowledge and pursuing my academic goals.

I express my love from the inner core of my heart to my endearing wife's parents and to all my family members for their affectionate love, inspiring encouragement, moral support and sustained interest throughout my studies.

I thank one and all who have been directly or indirectly involved in making this work to be completed successfully.
