I am very much thankful to the Agricultural Officers, Soil Survey and Landuse Organization, Thanjavur, for their co-operation during the soil survey.
I acknowledge with a deep sense of gratitude, the following Government agencies for providing data and relevant documentary sources in the form of maps and reports: Department of Statistics, Department of Agriculture, Tamil Nadu Water Supply and Drainage Board, Groundwater and Irrigation Divisions of the Public Works Department, Forest Department and Department of Horticulture. The individuals affiliated to the Departments are too numerous to thank individually and everyone, in some way, rendered valuable help and service and so I thank them very heartily.

I would be failing in my duty, if I do not thank the farmers and friends of the Nagalar Sub-Watershed, who provided me with the vital information for the completion of the thesis. I am thankful to the District Collector and District Revenue Officer of Theni district, Thasildar, Andipatti Taluk and Village Administrative Officer of Pulimankombai village for their kind co-operation and for providing valuable information and discussions throughout the study.

My mother and father both deserve my heartfelt gratitude for the fond love they showered on me throughout and especially during my studies. I am, in a deep sense, what they have made me in the years of education.
